

Peace In Ireland Now In Jeopardy Change In Police Court Procedure

Judge Enright Instructs Probation Officer Not to Release Drunken Offenders Outside Court Room

WILD WEEK- END ORGY

Forty-two Drunks Listed on
the Police Court Docket
Today

Court Threatens to Send
State Officers to Investi-
gate Dracut Camps

A radical change in police court procedure was announced from the bench by Judge Thomas J. Enright this morning, when His Honor declared that he had instructed the probation officer to release no more drunks without bringing them into court. The startling news of a new policy of severity came as the climax to the wildest week-end orgy of drunkenness here in the history of Lowell since liquor went under the ban. Sensation followed sensation throughout the session. A warning that he would have state officers sent to the Dracut camps, unless conditions improve there, came from His Honor when that township was represented by the arrests of many rolsters taken into custody for drunkenness under sundry circumstances of aggravation over Saturday and Sunday. Dracut, in the summer colony section, has become a "place of abhorrence," declared Judge Enright.

Forty-two drunks were listed on the docket. There were fourteen releases by the probation officer, the list of the kind to take place here under the court's new order. Six men were sentenced to jail or the state farm, four were fined, three suspended sentences were imposed, and a large number of cases were filed after the lucky ones had been sharply lectured.

The court room was crammed to the doors, while many necks craned in the passage without, at the opening of the session. The prisoner dock exhibited a large bevy of occupants, mostly charged with indulging in the cup. One became so obstreperous that he had to be taken down stairs to a police station cell. Four were so drunk that they could not be brought into court at all.

Two defendants were charged not only with drunkenness, but also with operating motor vehicles while under the influence of liquor. William W. Arbo, said Officer Small of Chelmsford, narrowly avoided an accident while drunk and driving. He was held in \$500 for a continuance. George Carpenter, charged with operating a Central street, being under the influence of intoxicants, pleaded guilty, and got two months in the house of correction. He appealed, and was held in bonds of \$300.

Wild Time in Dracut
A veritable bacchanal apparently took place in Dracut over Sunday, and the officers of that place, under the direction of Chief William J. Cullinan, made wholesale arrests. Judge Enright, after threatening to have state officers despatched to that section for a clean-up, flayed the situation there in the strongest terms. People who have purchased camps there, said His Honor, have found their property ruined as to its value by the conduct of revellers from Boston's suburbs and other places. Two of such, James Geerin and John J. Igoe, were ordered sent to jail for a month. Geerin was foul-mouthed, while Igoe was violent while being arrested, testified officers, one of whom the latter defendant smote with the handcuffs which had been applied. Alderico Rondach, said the Dracut officers, was neither foul-mouthed nor violent, but he was apparently senseless from drink. He paid a \$5 fine. Martin Dannehy drew a suspended sentence.

Judge Enright, in the course of the trial of the Dracut cases, took occasion to mention scores of complaints he has received from people who desire there These complaints, according to the judge, depicted debauches of liquor-drinking and disorder, shouting and cursing throughout the hours of the night, and immodest actions on the part of women brought to the resort by drunken and riotous campers. "It is

Greeks Launch Second Offensive Against the Turkish Nationalists

SMYRNA, Aug. 15.—(By the Associated Press)—The Greeks have begun a second offensive against the Turkish nationalists who are retiring rapidly toward Sakaria River without offering resistance.

Deadlock in Russian Relief Negotiations

RIGA, Aug. 15.—(By the Associated Press)—A deadlock was reached today in the negotiations relative to American relief for Russia's famine sufferers between the American relief administration and Maxim Litvinoff, acting on behalf of the soviet famine relief committee. Action by Washington and Moscow will be necessary to decide the issue, it is declared.

CALL TROOPS AS MILLS REOPEN

Two Companies Held in
Readiness for Possible Dis-
orders at Concord, N. C.

Mills Had Been Closed Sev-
eral Months Because of
Strike Involving Wage Cut

CONCORD, North Carolina, Aug. 15.—Two companies of state militia were held in readiness here today to suppress possible disorders growing out of the reopening of a number of cotton mills, closed several months because of a strike involving a wage cut of about forty per cent. Several thousand workers were involved in the strike and minor disturbances last week when several of the smaller mills resumed, led city and county authorities to appeal to Governor Morrison to send troops today as a precautionary measure.

The strikers have maintained a line of pickets around the mills and frequent small clashes have occurred. With the general reopening of mills today the authorities feared the situation might get out of control and this prompted the call for troops.

MEETING OF DAIL EIREANN

Informal Session of Irish Par-
liament Held in Mansion
House Today

Many Members Had Not
Met Before—Appear in all
Sorts of Attire

All Bore Same Marks of
Earnestness on Faces—
Eager to Learn Facts

DUBLIN, Aug. 15.—(By the As-
sociated Press)—An informal
meeting of the Irish republican par-
liament was the chief manifestation
today of the activity observable in
both Sinn Fein and Dublin castle
quarters as the result of the new
turn in the Irish negotiations fol-
lowing the disclosures in the cor-
respondence between Lloyd George
and de Valera. The meeting was
held in the Mansion House at noon
to give members, many of whom
had never met, an opportunity to be-
come acquainted and exchange notes
prior to the summited meeting of
the parliament which will be held
tomorrow to consider the whole
question of the negotiations.

Some of the members of the Dail
Eireann have been on the run, others
have been fighting with the Irish
republican army, and still others
were making their first appearance
in Dublin since their release from
prison or internment. They were in
all sorts of attire, but all bore the
same marks of earnestness on their
faces and showed eagerness to
learn any information regarding
the negotiations which had not
been made public, while discuss-
ing among themselves with the
greatest intent the letters of the
British premier and their own
leaders.

bought this Washington residence from Alban T. Fuller, Massa-
chusetts representative.

LOCAL MILK SITUATION

Supply Greater Than the

Demand Yet the Price is

Boosted

Was there any real necessity for
an increase in the price of milk in
Lowell on August 1 from 14 to 15
cents per quart?

Lowell householders are beginning
to ask this question with more or
less frequency in view of the as-
sertion of Melvin F. Master, city milk
inspector, that there is at present an
excess of milk in Lowell and the
surrounding towns and that the sup-
ply is far exceeding the demand. The
people who buy milk at retail
day in and day out fail to understand
why the old law of supply and de-
mand should be thus violated or why
they should be called upon to pay
more for milk now, when it is
abundantly plentiful, than they paid
when the producers had all they
could do to meet the demand.

Some of the dealers here and in
the neighboring towns have refused
to advance the price of milk despite
the mandate of the New England Milk
Producers' association, an organiza-
tion which has a more or less firm
grip on the milk supply of eastern
New England, that the price should
be advanced one cent per quart on
August 1. Many of the local dealers,
members of the association, complied
with the wishes of the organization
and told their customers that the new
price, 15 cents per quart, would be
effective from Aug. 1. Others, how-
ever, remained at the old price, 14
cents, and thereby hangs a tale of
confusion in the usually placid rou-
tine of the milk business in this sec-
tion.

The only reason advanced for the
increase, as far as can be ascertained,
is that it was "seasonal" and that it
was done every year. Under normal
conditions cows give less milk in Au-
gust and September than during the
early part of the summer chiefly be-
cause of scarcity of good grazing
ground.

Cows have been giving more milk
so far this month than they usually
do in August, according to Inspector
Master. The cool weather has pre-
vented the grazing pastures from
being parched and burnt and the
animals have not been irritated by
insects as much as in other years.

All these factors have tended to
create an excess of milk here and
milk dealers are between two fires
in their efforts to dispose of it. On
the one hand they have can after can
of milk piling up every day with no
ready market for its disposal unless
they bring their price below that
established by the association to
which they belong. On the other
hand, there rises up the mandate of
the producers' association that they
must not sell their product for less
than 15 cents per quart. They have
the choice of refusing to comply with
the standard price set by the associa-

ENGLAND FACES CRUCIAL PERIOD

De Valera Rejects Dominion
Status and Demands Full
Independence

Never, Says Lloyd George,
But Door Still Open to
Further Negotiations

De Valera Hints at Foreign
Arbitration on Ulster—
Craig Refuses to Yield

Papers Say Dail Eireann
Has Opportunity to Heal
Ireland's Many Wounds

LONDON, Aug. 15.—(By the As-
sociated Press)—England today faced a
crucial period in the negotiations look-
ing to the establishment of peace in
Ireland. The unexpected action of the
British government yesterday in mak-
ing public letters exchanged between
Prime Minister Lloyd George and
Eamon de Valera showed the people
that a virtual deadlock exists, and al-
though the door was declared to have
been left open for further parleys, it
was apparent that the situation was
one of critical gravity.

It appeared the next step should
be made in Dublin, as Mr. Lloyd George
yesterday "laid his cards on the table"
yesterday, and it seemed that Mr. De
Valera and his colleagues must meet
the situation they would issue a state-
ment today, or would wait until the
opening of the Irish republican parlia-
ment tomorrow, was uncertain. The
purpose of the precipitate action of
the government in making public the
British proposals and the demands of
the Irish republicans had not been dis-
closed, but it would appear that the

1921 TAX RATE
Definite announcement of the 1921
tax rate will in all probability be made
by the board of assessors early next
week. It was stated today in the as-
sessor's office. Final tabulations pre-
liminary to the computation of the rate
are now under way.

Local Men Take Marion Branch of Erie R. R.

MARION, Ohio, Aug. 15.—The Erie Railroad Co. announced today
that its local shops and round house had been leased by the Railway
Service Co. of Marion and would be operated by that concern beginning
immediately. The Railway Service Co. is an organization founded by
local manufacturers and capitalists and it will take over all repair and
other work now done in the shops, a statement said.

WESTFORD LEGION POST CARNIVAL

One of the biggest and most successful events conducted in the town of Westford in a long time was the carnival, which was held at Abbott's field Friday night and Saturday under the auspices of Westford Post 153, American legion. The program on the opening night consisted of a midway and general dancing and those in charge of the various booths reported a very substantial business.

An exhibition drill was given, those participating being Westford post under the direction of Sergt. D. Wilson; Groton post commanded by Sergt. Cedric Hodgeman and Chelmsford post under the command of Sergt. Lew Pope. The judges were Lieut. Griswold, Lieut. Fontaine from Camp Devens, who awarded the palm to Westford post, the prize being a silver trophy. After the drill there was a baseball game between the Abbotts and Lawrence club, the former winning by a score of 7 to 3. Sporting events were held the winners being as follows: 100 yards dash open, won by J. Phillips of Lawrence; J. Connors, second; Joe Cantin, third. Broad jump, won by J. Phillips; W. Blanchard, second. Boys' race, over 14 years, won by G. Remington, of Ayer; A. Soeker, second; A. Millett, third; boys' race under 14, won by E. Millet; J. Semple, second; G. Gingsas, third. Three-legged race, won by Connors and Cushing; Socha and Cantara, second; Junior three legged race, won by Millet and Blott; Mills and Phillips, second. Girls' race, won by Louise Hosmer; Jennie Blott, second; girls' potato race, won by Jennie Blott; Louise Hosmer second. Girls' midget potato race, won by Little Miss Cantin; Miss Wigham, second.

The whole affair was in charge of the following committee: General committee, Dr. H. R. Coburn, chairman; assisted by E. T. Hanley, Joseph Costello, George Wilson, Arthur W. Hildreth, treasurer. Sports: Seth Banister, Dr. Fabyan Packard; mid-way committee: John Spinner, Charles Robey, assisted by George Brulard, Joseph Murphy, F. J. Fitzpatrick, John B. Gray, Harvey Patterson. Others who assisted were George Hanson, Fred and Richard Pickin, Leon Hildreth, Joe Costello, William Wall, John Vanderpool, Everett Wright, William Mills, Phil Healy, E. T. Hanley, Raymond Charlton, Joseph Perkins, Alfred Couture, Dr. Packard, Dr. Coburn, Frank C. Johnson, Harold W. Hildreth and Jacob Helko, Eugene Guichard, George Wilson.

The following did great work in the refreshment booth: Mrs. Charles Robinson, Miss Marjorie Seavy, Maud Robinson, Elizabeth Spinner, J. Costello, Frances and Alice Wright, Miss McCoy, Lillian Sutherland, Ruth Sargent, Ruth Johnson, Mrs. A. M. Wells, Mrs. C. E. Hildreth, Marden, Morton and Gordon Seavy, Mrs. Bosworth, E. T. Hanley, H. W. Hildreth and Ed. Clement. Dance committee: J. Edward Clement and Fred Pickin.

The members of the Westford squad who won the silver trophy were Sergt. George Wilson, Seth Banister, Alfred Couture, Fabyan Packard, Frank C. Johnson, Charles Robey, Jacob Helko, George Brulard and Eugene Guichard. The grounds were well looked after by Harry E. Whitney, chief of police, Alonzo Sutherland, Charles Robinson, Comrade Chester Blaisdell and Officer A. Butler and A. W. Hunt of the Lowell police department.

GRASS STAINS

Grass stains can be removed if they are soaked for awhile in alcohol and then washed in clear water.

STYLE NOTE

White gloves with black ribs a white posy in the buttonhole, a pearl-gray derby and a gold-headed cane. If you wear these you're in style for the afternoon. For the gentleman so dressed above is none other than King George, himself, on the way to the Goodwood races. Interest in racing in England has increased by leaps and bounds since the war. Never in history has the sport been more popular.

PRINCESS LODGE

The annual outing of Princess Lodge, 134, Ladies' Loyal Orange association, was held Saturday at Ravers. There was a large attendance and all present enjoyed the program immensely. The success of the affair was due to the efforts of Sister Mary Colburn and Brother John Robinson.

Maxim, Who Took Noise Out of Bullets, Puts Pep Into Films

PEARL WHITE AND ROBERT ELLIOTT IN A SCENE FROM "A VIRGIN PARADISE." HIRAM PERCY MAXIM, INVENTOR, WROTE

BY JAMES W. DEAN

NEW YORK, Aug. 12.—Hiram Percy Maxim is the gentleman who took all the noise out of firearms by means of his well known silencer.

Hiram Percy Maxim is also the gentleman who put a lot of excitement into a few reels of celluloid when he wrote "A Virgin Paradise."

The latter is the latest photoplay to give Pearl White an opportunity to frolic with lions and monkeys, let down her tresses and to be a woman among men, as it were.

For, he is known, Pearl engages in a rough-and-tumble, honest-to-goodness scrap with a man—and whips him!

Pearl did the job so thoroughly that many meek husbands were afraid to leave the protection of the theatre after the picture's first showing.

And the wives? They squealed in ecstatic triumph as Pearl buffed and cuffed and womanhandled the villain.

It all started by Pearl, the daughter of a missionary, being left alone with a Bible on a South Sea island. She didn't know it, but an uncle on Long Island had died and left her a fortune.

One day while she was playing with some lions that were either too old to chew raw meat or were too well-fed

vamped Pearl rescued her from that. After Pearl had landed, quite by accident, in the Long Island home that was rightfully hers, the villain still pursued her. That's when the big battle started.

Much furniture was broken. Many clothes were torn. Bill Farnum, Bill Hart and Wallace Reery have nothing on Pearl when it comes to fighting a man's sized battle.

After Pearl delivered a little speech about the hypocrisy of civilization, she allowed the place to burn down, found the man she loved and married him and lived happily ever after.

And that's all, except that the man Pearl fell in love with was Robert Elliott and he looks just like Tom Meighan one minute and just like Bill Farnum the next.

ADMISSIONS TO "STAGE PICTURES" ARE REDUCED

Movies crowded many stage plays from the legitimate theatres at stage play prices. The theatrical producers announced a reduction in prices. This caused photoplay producers to abandon plans for road showings of big productions.

Griffith has announced that he has abandoned his plan to exhibit "Way Down East" for the new three years in legitimate theatres. The picture will be generally released through movie theatres at popular prices.

That film grossed twice as much as any theatrical attraction last year. Its total for the year was \$1,225,126. Prices in some cities ranged from \$2 to \$5.

Announcement has also been made that "A Connecticut Yankee at King Arthur's Court" and "Over the Hill" will be generally released through movie theatres at popular prices.

John Emerson and Anita Loos have the right idea about summer work. They are editing and titling "Good for Nothing" in the comfort of their country place at Bayville, Long Island.

Auto Thefts Have Doubled in New York

NEW YORK, Aug. 15.—Automobile thefts in New York have almost doubled in the last six months, according to police figures for the boroughs of Manhattan and the Bronx, made public today. Since February 202,491 cars valued at \$2,500,000 have been stolen. Officials of automobile insurance companies report a marked decrease in the anxiety of insured owners to get stolen cars back. Many owners have refused to identify machines that the police recovered, it was asserted, preferring to collect for the loss at war time insurance valuations.

You Need More Than A Laxative

To correct constipation, all organs of digestion and elimination should be helped. Try NR and see how much better you feel.

NR Today—Keeps the Doctor Away

To live and be healthy, your body mechanism must properly digest your food, extract all the nourishment from it and promptly throw off the waste that is left. This is accomplished by the processes of digestion, assimilation and elimination—the work of the stomach, liver, kidneys and bowels. The failure of any of the vital organs to do its work properly affects the action of all the others. A forced bowel movement does not help constipation; it only relieves for a few hours the condition that constipation brings on.

Now if you are used to taking so-called laxative pills, oil, purges and the like, you know mighty well you've got to be taking them all the time. Moreover, if you stick to any one laxative, you've got to be increasing the dose all the time. That can do you a lot of harm.

Stop dosing yourself with such things just long enough to give Nature's Remedy (NR Tablets) a trial, and let the results show the difference. NR Tablets are not mere bowel movers, their purpose is to correct the condition that induces constipation and give you real, genuine, lasting benefit: to improve your digestion and assimilation, give you a good hearty appetite, regulate your liver and bowels, tone up kidney action and give your poison-clogged body a good cleaning out.

Nature's Remedy (NR Tablets) is not harsh; it is mild, easy, pleasant in action; no griping or pain ever follows its use, but it is thorough and sure. By its action on the digestive organs it promotes assimilation which means extraction of full nourishment from your food, and thereby gives you new strength, energy, better blood, better appetite. By toning, not stirring, your lazy liver, NR sends bile into the intestines, improving intestinal digestion. Lastly, by gently encouraging more vigorous bowel and kidney action NR drives poisonous impurities out of and cleans up your body.

Try Nature's Remedy (NR Tablets) and just see how much better you feel in every way. Get a 25¢ box today and take one each night for a week. You'll say you never felt better in your life. NR is sold everywhere and recommended by your druggist.

FRED HOWARD, The Druggist

Indians' Hunker for Old Forbidden Dances Gives Uncle Sam Worry; Tightens Ban

By JACK JUNGMEYER
N.E.A. Staff Correspondent

SAN FRANCISCO, Aug. 15.—Wrinkled Indian hunkers, disgusted with the toddling of their effete sons, yearn for the good old days when a dance was a dance and blood leaped to the throbbing drums.

The "Kiss Dance," now, and the "Ceremony of the Virgins," the "Mothers of Brave Sons" and the "Snake Flies"—there was something to stir a man! But a camel-walking folk have placed these under the ban. Ugh!

With the season for Indian ceremonial at hand, from the Snake to the Rio Grande, this quenchless hunker of tribal oldsters for the ancient, forbidden festivals is giving Uncle Sam some concern. The barbaric dance is viewed as the greatest drawback to final self-sufficiency of the government's red wards. Yearly the restrictions are being extended. But there is, now and again, some backsliding.

Aboriginal Passions
The raw-hide drum, elder brother of the jazz-horn, does queer things to an Indian's heart. Before the government applied the silencer, it made him give away his blanket, his horse and on occasions even his wife. It numbed him to self-torture and stirred him to boastful extravagance. And always it begot distaste for work and the white man's way of salvation.

All this, comprehended by the older reservation agents, is suggested in circulars of the U. S. bureau of Indian affairs for the guidance of the newer agents.

"Reports on Indian dancing," writes Commissioner Charles H. Burke of Indian affairs, "reveal encouraging conditions. On a number of reservations,

however, the native dance still has enough evil tendencies to furnish retarding influence and at times troublesome situations.

Savage Tribal Rites
"Dancing" per se is not condemned. But celebrations involving elements of savagery and demoralizing practices must be eradicated by education if possible, or by punitive measures when necessary.

Together with thousands of this generation of good, bad and indifferent toddlers, I have yearned to witness the dances in which the original American dramatized his emotions and fed his mystic spirit. But the guardians of the Red Man have said it cannot be. Our grandsons perhaps, will see them translated into folk dances.

Ballroom Dancing
"Indian dances as such were not immoral or immodest in any degree comparable to the tolerated practices in many of our ball rooms today," Major James McLaughlin recently told me in describing them. Major McLaughlin is special inspector with the Indian Bureau and for many years presided over the Rosebud Reservation in Montana.

"It was the tendency they exerted in holding tribes to their barbaric state, and the temporary environment they created, that prompted their abolition."

The plow has succeeded the pow-wow, and the number of back-sliding patriarchs who will rise to an occasional rebellious drum dwindle.

Yet—there are some old feet that like to thump the prairie ground while young feet jiggle strange gyrations on polished floors.

FIGHTER FROM START TO FINISH IS KELLER

By Newspaper Enterprise.

ST. PAUL, August 15.—Fighters Friends and enemies both concede that little to Congressman Oscar Keller.

Right now Keller is furnishing the climax of a spectacular political career by leading a revolt against majority republican leadership at Washington, though he himself is a republican.

He has declared that the government has passed into the hands of a small clique, entirely ignorant of economics, and that this clique is blocking prosperity and good times by following the dictates of Wall Street.

Keller's political career began in

CONGRESSMAN KELLER

1910 when his election to the Minnesota state assembly took him from his retail grocery store here.

When the commission form of city government was adopted in St. Paul, Keller was named commissioner of public utilities. Then the fighting started.

Always Fighter
His entire term of office was a bitter battle with the utility corporations.

Attacking the local street railway company, he charged it repeatedly with giving poor service. He blocked every move of the company for higher rates, holding it relentlessly to the terms of its franchise.

While the street car fight was at its height, Keller proposed that the city buy and operate the lines.

"What's the use of paying traction stockholders seven per cent. interest," he demanded, "when money to buy the company can be borrowed at four and one-half per cent?"

The cars, Keller said, could be operated at a cent an hour with yearly profit of \$2,000,000 to the taxpayers.

Unions Back Him
Keller's championship of labor brought the unions solidly into line behind him in his fight on the traction magnates. In 1917 he was arrested on a charge of inciting riot, following an address he delivered before striking street car employees.

He was indicted but the indictment was dismissed before he was brought to trial.

Other features that characterized Keller's meteoric career here were:

1. He made St. Paul labor unions a political power. He endorsed the candidacy of his successor to the city council and labor elected him.
2. He was the father of a plan to build a municipal dock and levee here to stimulate river traffic. That plan now is being worked out.
3. He led a fight for better St. Paul schools. He boosted greater city appropriations for schools.

Keller is a square-built, heavy-set man. Aggressiveness is written in every line of his face and figure.

HIBERNIANS' OUTING AT REVERE BEACH

More than 600 people attended the annual outing of the Lowell Hibernians which was held yesterday at Revere beach. Early in the forenoon the party left this city in 22 auto trucks and went direct to the beach where a very enjoyable program was carried out during the day. The Irish Volunteer drum corps furnished the music for the outing. The party returned to this city at a late hour last evening tired but happy in the remembrance of a day well spent.

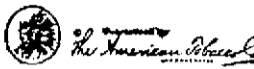

BRIGHTEN THEM
If your gilt picture frames are dull pour a few drops of ammonia on a piece of bread and rub it over them. Then be sure to burn the bread up to prevent its being eaten by children or animals.

REMOVE GLUE
The white of an egg will remove glue or the paste of fly paper from material. Rub the white over the soiled spot and it will roll up.

NORTHFIELD CLUB ATTENDS INSTITUTE

The Northfield club of 1921 left this morning at 8:30 o'clock to attend the 15th annual institute of the Massachusetts Christian Endeavor union which is to be held all this week at Northfield, Mass. The local club consists of 36 members of the Lowell Christian Endeavor union and the officers are Miss Carrie Stewart, president, and Miss Elsie Perron, secretary.

The institute is intended to train young people for the work of leaders in the Christian endeavor societies of the state. Lowell will play a prominent part in the affair this year. On "stunt night" Lowell young folks will present as their share of the program, "The Happy Family." A camera staff has been organized this year under the general direction of Miss Mabel Amos.

The personnel of the club is as follows: Miss Carrie Stewart, Miss Elsie Perron, Osmond E. Coburn, president of the Lowell union; A. Edwin Wells, president of Middlesex union; P. J. Spooner, president of the Lowell Alumni club; Roy John Singleton, counselor; Miss Myrtle Rugg, Mrs. P. J. Spooner, Eleanor MacDonald, Marion Morrison, Clara Chapman, Alta Linscott, Alexander Ross, Esther Blackie, Ruth Nield, Gladys Calverton, Muriel of Amoson, Alfred Fletcher, Irene Grimsel, Helen Varnum, Frances Graves, Mildred Rugg, Mahelle Reardon, Isabelle Kenyon, Alice Dowry, Evelyn Herson, Nathaniel Trull, Mrs. Nellie Rawnsley, Jessie Ross, Ruth Logan, Violet Slack, Ruth Ritcher, Walter Matthews, Mary Varnum, Bailey Trull, Olive Grimsel.

LOWELL MAN GETS GOOD APPOINTMENT

Louis Bennett, a former well known vocal teacher of this city, who some time ago left Lowell to accept a responsible position as an instructor in the Acadia Seminary Conservatory of Music and Fine Arts, Wolfville, Nova Scotia, has just been offered the professorship of voice and directorship of the annual festival of Converse college, Spartanburg, South Carolina, one of the most important annual musical events in this country.

The festival lasts three days during which there are five performances. The artists are generally from the Metropolitan Opera company or else concert singers of international reputation. The festival is held in the early fall.

Mr. Bennett will have the entire say as to who will take part in the festival, what opera and oratorio are to be given and will be in charge of the training of a chorus of more than 200 voices and a children's chorus of 500 voices. The night the oratorio is given Mr. Bennett will conduct the orchestra and chorus. His many Lowell friends and pupils will rejoice with him in this appointment.

HELD ANNUAL OUTING

The overseers of the various departments of the Sillesia mills in North Chelmsford held their annual outing at the farm of Bart Dunn in Dunstable, Saturday afternoon. The trip to the outing grounds was made in automobile trucks and about forty men participated. Sporting events were held, the winners being James McEnaney, John Robinson, John Johnson, Elmer Moore, George Tattersall, Albert Stoopher, Thomas Lehman, John Bracewell, Arthur Rousseau, Charles Martine, Jack O'Connell, Emile Gauthier, Joseph Gaudette and Fred Ballinger. Dinner in the form of a clam bake was served in the latter part of the afternoon. The committee in charge of the arrangements consisted of Arthur Rousseau, James McEnaney, John Dixon, Samuel Ker-

Broke Neck Chasing His Wife

BOSTON, Aug. 15.—While chasing his wife out of the house with a carving knife in his hand yesterday afternoon Michael Clifford, 45 years old, of 212 Salem street, Woburn, slipped on the top step outside his front door, missed his footing and fell to the ground. His neck was broken and he died instantly. His wife said he was under the influence of liquor and had run at her with the evident intention of stabbing her with the knife.

Edward Johnson, Harry Green, Fred Ballinger, Robert Moore and James Lahey.

EXAM FOR POSTMASTER

Inasmuch as the appointment of John H. Valentine as postmaster for North Chelmsford was never confirmed by the senate, a competitive examination for the position will be held Sept. 10. This will be the third examination for that position within a year. When the first examination was held the man who headed the list of eligibles refused the position. Then another examination was held with the result that Mr. Valentine was high man. He was given a recess appointment by President Wilson, but the senate failed to confirm the appointment. It is not known if Mr. Valentine will take the coming examination as he is ill at Nantasket beach.

CORN HUSKS

If you are lucky enough to be living where nice clean corn husks in quantities are available, save them. Dry them in the sun, make a tick and put them in it to serve as a mattress for your small son's or daughter's bed. The freshness is desirable.

OVERSEER HONORED
Mr. O. G. Fish, who for the last 15 years has been overseer of the spinning department of the Appleton mills, resigned his position Saturday, August 13. At closing down time he was called from his office by his former employees and presented a substantial purse of gold. Mr. Fish was very much surprised and after accepting the effects of the surprise, he delivered a short speech of appreciation after which general hand shaking and wishes of a long life and good health were on tap. Mr. Fish will, for the present, enjoy a much needed rest, which will take him to the White mountains and Maine.

London Admits Irish Situation of "Critical Gravity"

Plebiscite in Ireland Suggested

DUBLIN, Aug. 15.—(By the Associated Press)—The people of Ireland, who have enjoyed a month of peace, found it hard today to believe that negotiations between Eamon de Valera and Prime Minister Lloyd George were at the breaking point. Suggestion has been made that the Dail Eireann, which meets tomorrow, may propose submission of the question to a plebiscite, but this proposal may not come from those wishing to prolong the truce as long as possible.

Chance for Big Man to Save Ireland

BELFAST, Aug. 15.—Commenting on the new developments in the Irish situation, the Unionist Belfast Telegraph says: "What a tragedy for Irish nationalism that there is not to be in its rank one man of the quality, character, bigness and statesmanship to stand forth upon the stage and rally round him all the thousands who are yearning for such a peace as is now offered and are turning weeping eyes and longing hearts everywhere for some strong man to lead them out of the Gethsemane which the gun men have made of Ireland."

"England has been magnanimous to the point of folly, and Ireland insane to the point of criminality. For Ireland, separation would be suicide."

Dail Eireann Has Chance to Save Ireland

DUBLIN, Aug. 15.—The Irish Times says: "The Dail Eireann tomorrow will have a unique opportunity of healing Ireland's many wounds and of assuring for the Irish people a great and glorious future. We hope and pray they will follow General Smuts' safe advice."

The Cork Examiner says: "The way to settlement would perhaps be much easier if Ulster were a little more yielding, but we have got to face the fact that Sir James Craig's Ulster wants to stand by the home rule act."

Call Meeting of Ulster Cabinet

BELFAST, Aug. 15.—Little surprise was felt here at the tenor of the letter from Eamon de Valera to Prime Minister Lloyd George, rejecting the government's offer of dominion status for Ireland, as talk of peace has been regarded with much skepticism. It is pointed out that should the truce in southern Ireland be ended, the government's difficulties would be enormously increased through having recognized the Sinn Fein as belligerents. A meeting of the Ulster cabinet has been called, although Ulster is only indirectly interested. Sir James Craig, the premier, is grouse shooting in Scotland.

Argentine Favors Irish Independence

BUENOS AIRES, Aug. 15.—Laurence Ginnell, who recently arrived here as "envoy of the Irish Republic" has called Eamon de Valera that "Argentina is practically unanimous for Irish independence" and will support any decision. High masses for Ireland was held at the Passionist church, a large congregation being present. The despatch added that Mr. Ginnell had attended on Friday upon invitation the celebration of a Te Deum in the Cathedral on the anniversary of the capitulation of British troops on August 12, 1803. President Yrigoyen and other government officials were present. Ginnell has not as yet been received by Foreign Minister Pueyrredon.

U. S. Plan for Control of China

TOKIO, Aug. 15.—(By the Associated Press).—Reports from America that the United States may suggest control of China by an international commission are understood to have been conceded at the meeting of the Japanese cabinet yesterday.

Japan is studying the advisability of proposing an international council for the guidance and development of China, says the Kokumin Shimbun. The work of the council would be based upon the idea of the powers' abandonment of spheres of influence and allotting remedies, including extra territoriality, which are inimical to China's complete sovereignty. The unification of north and south China also would be sought, the newspaper asserts.

\$95,000 Taken in Payroll Robbery

SPRINGFIELD, Ill., Aug. 15.—A. E. Traeger, auditor of the Peabody Coal Co., said last night that \$95,000 was the sum secured in the payroll robbery at Kincaid Saturday when four bandits attacked Jerome Lockhart, deputy sheriff, and F. M. Jones, bank cashier, on the Main street of Kincaid, knocking them down and fleeing with the money before a number of witnesses could interfere.

Mrs. Harriet Prescott Shepard Dead

NEWBURYPORT, Aug. 15.—Mrs. Harriet Prescott Shepard, novelist and poet, died at her home on Deer Island early today. She was born in Calais, Maine, in 1836.

Wife of Natick Clergyman Drowned

MIDDLEBORO, Mass., Aug. 15.—Mrs. Orville E. Crane, wife of a Natick clergyman, was drowned in Lake Assawamsett late last night, when a small sail boat was capsized in a squall. William Munroe and Miss Marion Bayer of Natick, week-end guests at the Crane cottage, who were being taken across the lake to the car line by Mr. Crane, were thrown into the water, but were rescued by a cottager who put out in a motor boat.

DE VALERA'S REFUSAL OF LLOYD GEORGE'S OFFER

LONDON, Aug. 15.—(By A. P.)—On Aug. 10 Eamon de Valera addressed the following communication to Mr. Lloyd George:

"Sir: On the occasion of our last interview, I gave it as my judgment that the Dail Eireann could not, and the Irish people would not accept the proposals of your government set forth in draft July 20. Having conferred with my colleagues and with them given these proposals most earnest consideration, I now confirm that judgment."

"The outline given in the draft is self-contradictory and the principle of the offer is not a determining factor. To the extent that it implies recognition of Ireland's separate nationhood and her right to self-determination, we appreciate and accept it."

"But in the stipulations and express conditions concerning vital matters the principle is strangely set aside and a claim advanced by your government to any interference in our affairs and to a control which we cannot admit."

"Ireland's right to choose for herself the path she shall take to realize her own destiny must be accepted as inalienable. It is a right that has been maintained through centuries of oppression at the cost of unparalleled sacrifices and untold suffering."

"We cannot propose to abrogate or impair it, nor can Great Britain or any other foreign state or group of states claim to interfere with its exercise in order to serve their own special interests."

"Declaring that it is Ireland's desire to be free of imperialistic entanglements which will prove destructive of Irish ideals and be fruitful only of ruinous wars and crushing taxation, Mr. De Valera says:

"Like the small states of Europe, the Irish people are prepared to hazard their independence on the basis of moral right, confident that as they would threaten no nation or people they would in turn be free from aggression themselves."

"Asserting that this policy is the policy that Irishmen have declared for in plebiscite after plebiscite, Mr. De Valera continues:

"As for myself and my colleagues, our deep conviction is that true friendship with England, which military alliance has frustrated for so long, can be obtained only on the basis of an amicable but absolute separation."

"The fear, which we believe groundless, that Irish territory may be used as the basis for attacks upon England's liberties, can be met by reasonable guarantees not inconsistent with Irish sovereignty."

"Mr. De Valera declares that a dominion status for Ireland is illusory. He says the freedom the British dominions enjoy is less the result of legal enactments or treaties than of the immense distances which separate them from Great Britain and make interference by Great Britain impracticable."

"The most explicit guarantee, including the dominion's acknowledged right to secede," Mr. De Valera continues, "would be necessary to secure for Ireland an equal degree of freedom. There is no suggestion, however, in the proposals of any such guarantee."

"Instead, the natural position is reversed. Our geographical situation with respect to Great Britain made the basis of legal and restrictions unheard of in the case of dominions. The smaller island must give military safeguard and guarantees to the larger and suffer itself to be reduced to a position of helpless dependency."

"Obviously we are unable to urge acceptance of such proposals upon our people. A certain trade or free association with the British commonwealth group as with a partial league of nations, we would have been ready to recommend, and, as a government, to negotiate and take responsibility for, had we an assurance that the entry of the nation as a whole into such an association would secure for it the acceptance of the present proposals."

"To meet those sentiments alone this step could be contemplated. Treaties dealing with proposals for free interlude and mutual limitations of armaments we are ready to any time to negotiate. Also mutual agreements concerning air railway and other communications, and generally for the smooth intercourse essential to both nations."

"But all such treaties and agreements would require submitted for ratification, first to the national legislature and afterward to the Irish people. In a manner showing that their decision was a free decision and without any element of military compulsion."

"Mr. De Valera offers to leave the question of Ireland's share of the national debt to arbitrators, each to be appointed by Ireland and Great Britain and the third chosen by agreement, or nominated, say, by the President of the United States. He declares that the question between the political minority and the great majority of the Irish people must be left for the Irish people themselves to settle."

"We cannot admit the right of the British government to mutilate our country, either in its own interest or at the call of any section of our population," the letter continues.

"We do not contemplate employment of force. If your government stands aside we can effect complete reconciliation. We agree with you that no common action can be secured by force. Our regret is that this wise and true principle which your government prescribes for us for the settlement of our local problems it seems unwilling to apply consistently to the fundamental problem of the relations between our island and yours."

"The principle we rely on in our case we are ready to apply in the other; but should this principle not yield to immediate settlement, we are willing that this question, too, should be submitted to external arbitration."

"Must Be Freed From Aggression. Thus we are ready to meet you in all that is reasonable and just. The responsibility for initiating and effecting an honorable peace rests primarily not with our government but with yours. We have no claim to impose, no claims to advance, but the one that we be freed from aggression."

"We reciprocate with a sincerity to be measured only by the terrible sufferings our people have undergone, the desire you express for a mutual and lasting friendship. The sole cause of the ancient feuds you deplore has been, as history proves, the attacks of the English rulers upon Irish liberties. These attacks can cease forthwith if your government has the will."

"The road to peace and understanding lies open."

England Faces Crucial Period

Continued

prime minister sought to lay the Irish problem before the country on the eve of the meeting of the Dail Eireann.

Government Terms. The government terms in brief were as follows:

"Dominion status for Ireland, with complete autonomy in financial matters but without tariff or trade restrictions between the islands. Ireland would maintain defense forces and police, but her territorial forces would be kept within 'reasonable limits.'"

"Ireland would maintain her own postal system, but would grant Eireann air defense and a communication facility. Ireland would have control of her own educational and industrial affairs, but the British navy would maintain its hold on the seas around the island. A share of the United Kingdom's debt would be assumed by Ireland, the exact amount to be fixed by arbitration."

Dr. Valera for Independence.

Mr. De Valera in reply, demanded full independence for Ireland, and suggested a treaty of association with the British commonwealth group. Treaties regarding trade and limitation of armaments were urged by the Irish republicans, but would stand ready to agree to a treaty of association and other communications. The Ulster problem will be left to the Irish themselves for solution, Mr. De Valera declared that the "employment of force was not contemplated."

Attitude of Ulster.

The attitude of the Ulster government was made plain by the making public of a letter to Mr. Lloyd George from Sir James Craig, the Ulster premier. Sir James expressed the loyalty of his government to the empire, and reiterated his readiness to confer with Mr. Lloyd George and the Sinn Fein as to some means of settling the Irish controversy, but declared he would not support the Sinn Fein in what he described was a "move to coerce the government to repudiate the Irish act" and "to press for wider powers."

Sir James said he would not interfere in any negotiations between the British government and the Irish republicans, but would stand ready to co-operate on equal terms with southern Ireland in carrying out any agreement reached.

London Papers' Views. Most of London's newspapers reflected the belief that the government's proposals offered a generous settlement of the controversy.

"The Daily Express declared its belief that Mr. De Valera was having trouble with the extremists of his party, and ventured to predict that his reply was not the last word from Dublin. It also asserted that Premier Lloyd George's 'generous proposals' would have a favorable effect upon the great body of the Irish people. The newspaper thought that changes in detail might still be possible, but agreed with other newspapers that the government's proposals must be England's last word, adding 'and they ought to satisfy every reasonable aspiration of the Irish people.'"

The Daily Mail said Premier Lloyd George would "have the sympathy of his country behind him in the attitude he had taken."

Government Denounced. The Daily Herald, representing the socialist labor view, declared the British offer was "essentially short of the just and logical Irish demand, and created a deadlock which causes us to look to the future with anxiety and dread. This newspaper will stand by the Irish, whatever decision they reach, but it hopes the Dail Eireann, in order to save lives and bring peace, will be able to accept something less than Ireland's due."

The Morning Post denounced the government for "having deliberately placed this country in the position of a defeated nation by suing for terms."

"All of Ireland's best friends," said the Manchester Guardian, "and all who regard with passionate shame the wrongs she has suffered will hope and pray she will not close the door of peace."

Cannot Go Further. The Yorkshire Post declared that the government had already gone far in even undertaking negotiations under existing conditions, adding that "what ever the consequences may be, it will not and cannot go further."

The Scotsman of Edinburgh said "peace is now in utmost jeopardy, and if the Sinn Fein has spoken its last word the revolution of temper in this country will be instantly overwhelmed."

The Glasgow Herald said the government had made an offer of "unparalleled liberality and magnanimity," and that the continuance of negotiations was not precluded because the Sinn Fein has to reckon with the reason of Ireland and the sentiment of the civilized world."

Comment on Smuts' Letter. DUBLIN, Aug. 15. (By the Associated Press).—The Irish republican parliament's publicity department issued a statement yesterday declaring that the recent letter of Gen. Smuts, the South African premier, to Eamon de Valera in regard to the Irish proposals for peace in Ireland, had been made public without the consent of Mr. de Valera. The statement said:

"The letter of Gen. Smuts simply summarizes his own views, which can readily be understood when the general's position is recognized, but which are not justified by the terms of the British proposals, as will be seen when these proposals are published."

LLOYD GEORGE'S REPLY TO DE VALERA

LONDON, Aug. 15.—(By the Associated Press).—Mr. Lloyd George's reply to President de Valera, which was dated August 13, follows:

"The earlier part of your letter is so much opposed to our fundamental position that we feel bound to leave you in no doubt of our meaning."

"You state that after consulting your colleagues you confirm your declaration that our proposals are such as the Dail Eireann could not and the Irish people would not accept. You add that the outline given by our draft is self-contradictory and that the principle of the pact offered you is not easy to determine. We desire, therefore, to make our position absolutely clear."

"In our opinion, nothing is to be gained by prolonging the theoretical discussion of the national status which you may be willing to accept, as compared with that of the great self-governing dominions of the British commonwealth, but we must direct your attention to one point on which you lay some emphasis and on which no British government can compromise, namely, the claim that we should acknowledge the right of Ireland to secede from her allegiance to the king."

Destinies Indissolubly Linked.

"No such right can ever be acknowledged by us. The geographical proximity of Ireland to the British Isles is a fundamental fact. The history of the two islands for many centuries, however it is read, is sufficient proof that their destinies are indissolubly linked."

"Ireland has sent members to the British parliament for more than 100 years. Many of her people during all that time have enlisted freely and served gallantly in the forces of the crown. Great numbers in all the Irish provinces are profoundly attached to the throne."

"These facts permit of one answer, and one only, to the claim that Great Britain should negotiate with Ireland as a separate and foreign power."

"When you, as the chosen representative of Irish national ideals, came to speak with me, I made one condition only, of which our proposal plainly stated the effect—that Ireland should recognize the force of geographical and historical facts."

"It is those facts which govern the problems of British-Irish relations. If they did not exist, there would be no problems to discuss. I pass, therefore, to the conditions which are imposed by these facts."

No Arbitration by Foreign Power.

"We set them out clearly in six clauses in our formal proposals, and need not restate them here, except to say the British government cannot consent to the reference of any such questions, which concern Great Britain and Ireland alone, to the arbitration of a foreign power."

"We are profoundly glad to have your agreement that northern Ireland cannot be coerced. This point is of great importance, because the resolve of our people to resist with full power any attempt at secession by one part of Ireland carries with it of necessity an equal resolve to resist any effort to coerce another part of Ireland to abandon its allegiance to the crown."

"We gladly give you the assurance that we will concur in any settlement which Southern and Northern Ireland may make for Irish unity within the six conditions already laid down, which apply to Southern and Northern Ireland alike. But we cannot agree to refer the question of your relations with Northern Ireland to foreign arbitration."

"The conditions of the proposed settlement do not arise from any desire to force our will upon the people of another race, but from facts which are as vital to Ireland's welfare as to our own. They contain no derogation from Ireland's status as a dominion; no desire for British ascendancy over Ireland, and no impairment of Ireland's national ideals."

"Our proposals present to the Irish people an opportunity such as has never dawned in their history before. We have made them in a sincere desire to achieve peace, but beyond them we cannot go."

"We trust you will be able to accept them in principle. I shall discuss their application in detail whenever your acceptance in principle is communicated to me."

PLAN FIELD DAY.

A field day under the auspices of the Ring Spinner Fixers' union will be held on the Aiken street grounds in West Centralville Labor day. The affair will be free to the public and numerous sporting events will be held, suitable prizes to be awarded the winners. The field day will be staged in an endeavor to promote sporting interests in this city and it is expected a large attendance will witness the numerous events that will be carried on. A feature of the program will be a baseball game between the married and unmarried men of the union. The committee on arrangements consists of Albert Couture, chairman; Henri Fortier, David Leclair and Theodore Holmes.

KILLED BY FALL. PROVIDENCE, Aug. 15.—George F. Field, inspector in the United States customs department for 10 years and previously assistant observer at the United States weather bureau here, fell from the window of his second story room at 2 Charles Field St. some the Saturday night, and was killed. He suffered a fractured skull and death is believed to have been instantaneous.

The body was discovered at 2.40 o'clock yesterday morning by John McAllister, a milkman.

COUNCIL MEETING. There will be a special meeting of the municipal council at 11 o'clock Wednesday morning. Among the matters which may come up for discussion is the letter of John Kearney requesting the council to rescind its action of last week when it voted to rename Merrimack square Paul J. Kearney square in honor of the Lowell man of that name who gave up his life in France. It is probable that the council will vote to rescind its previous action.

Novelty night at Ocean Echo dance hall, Salisbury beach.

SAVED SIGHT OF HUNDREDS

Dr. May T. Strout recently returned to Washington, D. C., from the Balkans where in 15 months she restored the sight of 1700 Serbians. She was the only eye specialist there and natives believed her to be endowed with supernatural gifts. Here she is with Boris, who calls her "mother." He is the son of a Serbian general killed in war.

NORTHCLIFFE REVIVES THE POLKA-DOT!

BY MARIAN HALE

NEW YORK, Aug. 13.—"What is a polka-dot and why is a polka-dot?" queries Lord Northcliffe, the British publisher.

And the fashion opportunists are right on the dot to tell him.

If you walk up the New York streets past the gown shops you think at first your eyes are affected, with these black spots dancing before them.

It's whispered that haberdashers are going to get out a new polka-dot tie called "The Northcliffe."

Why? Well, just because someone admitted Lord Northcliffe's polka-dot tie and told him so.

Northcliffe said he had never heard of "polka dots," and would like to have the term explained.

That was enough for the fashion people!

Style opportunists flourished years ago just as they do today. For years ago when the Bohemian peasant dance called the polka was the rage in the old world as well as the new, President Polk was president of the United States. An enterprising manufacturer got out a new style of silk, a fabric with contrasting dots upon it.

Immediately the new fabric, worn by the fashionables who were dancing the polka became known as the polka-dot.

Polka-dotted materials have been much in vogue this summer, but they are better than ever now, thanks to Northcliffe's interest in them! In voile, georgette, swiss and silks the polka dot is very smart for afternoon as well as street dress. Dark blue, black and brown with white dots are the most popular combinations though light backgrounds with dark dots are also good.

CARUSO'S FAVORITE PHOTO OF GLORIA

This is the picture of little Gloria Caruso, that her father liked best. It was taken shortly before Caruso and his family sailed to Italy, where the great tenor died. Little Gloria is expected to receive a large share of the Caruso fortune.

MUNICIPAL GAS PLANT

City Clerk Turns Over Initiative Petition to Election Commissioners

City Clerk Stephen Flynn early this forenoon turned over to Chairman Hugh C. McOsker of the board of election commissioners an initiative petition calling for the establishment of a municipal gas plant in this city. The petition bears more than 1000 signatures and the election department immediately set to work to check up the signatures to see if they conform with the names on the voting list. Chairman McOsker expects to have the work completed by the middle of the week.

The petition consists of 97 separate papers, each turning it over to Chairman McOsker. City Clerk Flynn was given a receipt which he will hold until the names have been certified and he again takes charge of the petition for presentation to the municipal council. In order to be effective, approximately 2000 signatures must be found to conform absolutely with names on the voting list. If the required number is not found, the petitioners will be given time to get more names.

The task of obtaining signatures for the petition was started last spring by striking employees of the Lowell Gas Light Co. The work has progressed steadily although for the past few weeks little or nothing was heard from the petitioners. The petition asks the municipal council to establish a municipally owned and controlled gas plant here.

After the election commission has certified to the correctness of a sufficient number of signatures as required by law the petition will go to the municipal council probably early next week. The council will then have the right either to vote to establish a gas plant here or to turn the question over to the voters as was done in the case of the initiative petition dealing with contract street work. The council will be called upon to name the date for the election if it sees fit to refer the question to the electorate.

It has been suggested that if the council takes the latter course, the special election provided for by the state legislature for Oct. 18, when the voters will be called upon to accept or reject the proposed new charter, could be combined with the initiative election on the gas plant question. However, if the council receives the initiative petition within the next week or 10 days, the special election will have to come before Oct. 18, as the law says such special elections must be held no more than 60 nor less than 40 days after the petition is turned over to the council. This would bring the date to the latter part of September. Neither can the election be combined with the general city election in December because that is more than 90 days away.

The only way to have an election on the gas plant question—if such an election is voted—could be combined with another election would be to have the presentation of the petition to the council purposely delayed. It is doubtful if either the city clerk or the election commissioners would wish to assume the responsibility for such a delay.

Accordingly, from present indications, if the council refuses to handle the petition itself, another special election will loom on the horizon late in September. This will mean the expenditure of another \$5000. All of which hinges, of course, on the election commission's finding a sufficient number of correct signatures to warrant the petition being presented to the city council. Within a few days' announcement will be made as to the number of correct signatures found.

Local Milk Situation

Continued

posing of their product at 14 cents per quart.

The net result of the situation has been more or less beneficial to the retail purchaser naturally, but there are still many dealers insisting on 15 cents. They tell their customers that they have no control over the situation but that the price of milk is regulated by the association to which they belong.

If the excess supply continues, it is very probable that all the dealers will have to come down to 14 cents. On the other hand if an extended hot dry spell should come the supply will naturally dwindle and the price will go back to 15 cents. The weather man will play a big part in developments between now and the fall season.

However, frequent rains this summer have averted this usual condition to a great extent. In addition, there has usually been a greater demand for milk in August than in most other months of the year. Warm weather usually brings in its wake an increase in the demand for milk. Soft drink establishments, use a lot more than they do under ordinary circumstances and individuals drink more of it.

But this year there has been no such demand in August. There has been little excessive heat since the first of the month and consequently there has been a falling off in the demand as compared with the month of July, when there were many warm days.

One of the corollary effects of the excess of milk, according to Inspector Master, has been the attempt of many producers who are not regular dealers and who have no regular market for their supply, to "smuggle" their milk into Lowell, sell it far below the established price and then return to their farms. This has added to the confusion in the local market.

These "smugglers," so-called, are not regular dealers and are not licensed by the city. Inspector Master and his force are making every effort to apprehend them and to insist that they take out a license. However, few of them wish to go to the trouble of having their farm put in condition for an inspection inasmuch as under ordinary circumstances they would not bother with retail trade.

LITTLE GIRL IS

SERIOUSLY INJURED 'WARE WASTE AND WEAR WELL!

Human Bodies Are Poisoned by Their Own Waste. Most Diseases Are Preventable.

The human body has to be heated and fine foods burned inside the body produce much waste. All this waste should be removed from the body regularly, thoroughly, daily, by the eliminative organs, which are the bowels, kidneys, skin, and to some extent the lungs. These should act in harmony—if the bowels are inactive extra effort is required of the others, which easily become deranged. Many medicines will force bowel action temporarily but the after-effects are harmful. Many remedies are advertised, some of which have proven year after year to be reliable, efficient, and without harmful action or effect. Take Beecham's Pills for example. For over 70 years Beecham's has been a household word all over the world. 70 years of use by all sorts of folks, men, women and even children, have proven first, that Beecham's Pills do what is claimed for them; second, that they are harmless, do not produce bad effects. Some medicine forces Nature to unnatural action. Other medicines, like those contained in Beecham's Pills assist Nature, act mildly, persuade and hence produce no harmful effects. It is common to find families in which Beecham's have been used by several generations, their use handed down from father to son and from mother to daughter.

That's the best possible recommendation for any remedy. Every druggist sells Beecham's, is glad to do so because he knows that their reputation has been won by merit.

DEMAND ON OUTDOOR RELIEF FUND GROWS

Before the expiration of the present month more funds for the maintenance of the outdoor relief work of the charity department will have to be forthcoming if the work is to go on as usual. According to Superintendent Conley, the excessive demands made upon the department since the beginning of the year have practically exhausted its appropriation. Mr. Conley says. The first three months of the year drained heavily on the outdoor relief appropriation and even during the summer months the requests for assistance have been far above normal.

With the return of the cool months and the demands for coal, the expenditures for outdoor relief will take another jump and more money must be forthcoming if these demands are to be met.

THE LAST DAY FOR GLARING HEADLIGHTS

The lid goes on today in every part of the state, in the matter of glaring headlights and searchlights. All operators of automobiles will be subject to police action if they are not provided with authorized and standardized headlights. Motorists have been admonished of the changes in regulations, with additional stringency, in the press of all cities and towns. Both motor trucks and pleasure cars will be amenable to the penalties of the new law.

MEMORIAL AUDITORIUM

Unless unforeseen conditions arise in the meantime, William Drapeau, contractor of the new Memorial auditorium, will be ready to turn over the completed structure to the city early in January, he said this morning when questioned as to progress on the structure. The work is progressing favorably, he says, and unless severe weather or other unexpected obstacles arise in the meantime, the building will be completed early in the new year.

complained," declared His Honor, "that the Tynghorsh police won't do anything to ameliorate camping conditions. But the Dracut force is active, and it is up to me to back them up."

For Illegal Keeping

One defendant was up for illegal keeping. It is contended by the Hagar squad officers who made the arrest that he was acting as a "hipper" at a local near-beer resort. His case was continued.

Among those jailed was John J. Stack, who appeared scantily attired Sunday morning, and began flinging bottles and striking out right and left, according to the arresting officer. He appealed. Alfred Marchand, released from the house of correction a few days ago, and before the court Saturday evening. With two others, who also drew incarceration, he was given a direct sentence. He will go to the state farm. His two companions, Ovilla Parent and Ernest Lavasseur, got one month each. They appealed, but later thought better of their action, and accepted their terms.

Michael Walsh, charged with drunkenness, was fined \$10. He was tapping on windows, frightening people, it was testified. A short time ago he paid a fine for annoying people at the depot while drunk. James J. Norton and Michael McGlynn were also fined \$10 each for drunkenness.

John Hamer, stigmatized by the arresting officer as insulting to passers-by while drunk, got a suspended two months' sentence. Adolph Kuczen-ski got the suspension of a three months sentence. He has been pursuing his wife with a dirk, it was testified.

Brunswick
PHONOGRAPHS AND RECORDS

September Brunswick Records ON SALE TOMORROW

This September release of Brunswick Records merits the title of a *Super-Feature-List*. It offers two great artists new to Brunswick Records, Giuseppe Danise, Baritone; Florence Easton, Soprano; and presents in perfection and variety, songs, band selections, dances and novelty numbers that have been accepted as the best in their respective fields. This list will appeal to widely diversified tastes and temperaments and will reward careful scrutiny of its contents.

- 30010 { Di Provenza il mar (Thy Home in Fair Provence) From *Traviata* Act II, Scene 1 (Vardi) Baritone, in Italian Giuseppe Danise
1.50
30011 Ave Maria (Bach-Conrad) Soprano and Violin, in Latin Florence Easton and Max Rosen
1.50
10040 Dreams of Long Ago (Carroll-Caruse) Tenor Mario Chamlee
1.50
13025 Hard Trials (Negro Spiritual) Tenor Theo. Karle
1.50 Nobody Knows De Trouble I've Seen (Negro Spiritual) Tenor Theo. Karle
10039 Träumerei (Reverie) (Schumann) Violin Solo Max Rosen
1.50
5060 There's Only One Pal After All James Sheridan and James Lynch
1.50 Hald Fast in a Baby's Hands Frank Mellor and George Reardon
2121 I Used To Love You But It's All Over Now Strand Male Quartet
45 Oh! They're Such Nice People Billy Jones
2117 Henry's Attempt At Suicide (Two Comedians) Billy Golden and Billy Heine
45 Rabbit Hunk (Comedian) Billy Golden
2122 Bird Imitations Whistling Solo Margaret McKee
45 Birds and The Brook Whistler with Orchestra Margaret McKee
25004 Variations on Silver Threads Among The Gold Vessella's Italian Band
1.50 Southern Rhapsody Vessella's Italian Band
2119 Kawaba—Hawaiian Melody Frank Ferrara and Anthony Franchini
45 Malani Ann Ka Makani (Cool Breezes) Frank Ferrara and Anthony Franchini
5061 My Cherry Blossom Fox Trot Isham Jones' Orchestra
1.50 Stolen Kisses Fox Trot Introducing "In a Boat" Isham Jones' Orchestra
5061 Emaline—Juanita Fox Trot Isham Jones' Orchestra
25005 Ti-O-San—Idling Fox Trot Isham Jones' Orchestra
1.50
2120 Bring Back My Blushing Rose Fox Trot, Introducing "Sally, Won't You Come Back" from Ziegfeld's Follies of 1921 Carl Fenton's Orchestra
45 Learn To Smile Fox Trot Introducing "Conversation Strip" from "The O'Brien Girl" Carl Fenton's Orchestra

AFTERMATH OF ELECTIONS

Whatever the result of any election may be it is sure to leave behind it an aftermath of greater or less bitterness. The recent trial of strength at the polls in Lowell on the question of having construction work on streets done by contractors has not proved itself greatly different from others. Extremists on both sides are saying things not wholly kind about their opponents.

This is unfortunate. On any important issue that comes before the voters at the polls there must be radical differences of opinion. If it should happen to be a matter of a choice of candidates, it is clear that there must be a difference of opinions as regards the opponents or all who vote would cast their ballots for the same man. When such a question as was before the people in the recent initiative election is up for consideration there must be two sides worthy of consideration or otherwise there would be no such trial of strength at the polls.

It is, when thought of carefully, one of the most peculiar characteristics of humankind that men and women form opinions in some way or other which they do not as a rule understand, and certainly in the forming of which reason does not always play a leading part, and then they seek to accumulate from every possible source, reasons for bolstering-up their already formed opinions and reject all that contradicts their opinions.

It would seem the part of intelligent men and women to always have open minds ready to consider and weigh every fact that might come to them as having a bearing on any opinions they might hold.

It was Mr. Emerson who many years ago started to puncture the theory that there was something especially creditable in holding to an opinion in the face of all opposition. Mr. Emerson's notion that "consistency is not one of the supreme virtues of the world" has not made great progress toward general acceptance since his day. It is still a "term of opprobrium" to call a man a "turn coat" if he expresses one opinion today and another tomorrow. Perhaps Solomon is called the wisest of mankind because he had the courage to change his opinions when he thought there was good reason for doing so.

The practical lesson to be applied to the result of the late initiative election is that in almost equal numbers the persons who voted were divided in their opinions as to the wisdom of contract paving. Persons on both sides had a right to hold their opinions. Now that the election is over it is proper that proponents on both sides should be willing to take into consideration whether opponents may not have had something of right on their sides.

OUR AIR FORCE

Airplane accidents in government service are on the increase. This increase in loss of men and machines is out of all proportion to any increase in flying activities. Between Sept. 1, 1917, when active training for war flying began, and the signing of the armistice, Nov. 11, 1918, there was one fatality for every 3073 hours of flying. Following the signing of the armistice and cessation of intensive training, the aviation mortality rate increased, so that from Nov. 11, 1918, to March 15, 1919, the rate was one fatality for each 2203 flying hours. Today the death rate closely approximates one death for each 1000 hours of flying or three times the casualty rate of our air service in the war.

The increase in aviation fatalities may be attributed to diversified causes—from mechanical defects to individual failings in the personnel. But the chief factor in the increase is the increase in flying activities. It is official confession to be made. Since signing of the armistice, congress has appropriated \$135,613,000 for the army and navy air services and of this approximately \$20,000,000 has been for work intended to make aviation safe for the aviator. To the average taxpayer it looks as if the intelligently directed expenditure of more than \$135,000,000 should be productive of better results than have been obtained.

America never will be safe without an able air service. Aviators cannot defend the nation until they themselves are defended against the elements that make peace-time flying unsafe. The world war found America—the birthplace of the airplane—behind other powers in aviation. It still lags behind. If the recent naval airplane tests off the Atlantic coast showed anything, they showed this: That our immobile coast fortifications are largely obsolete. For forts with guns that can shoot surely to the mark only up to 10 miles or so, cannot defend our harbors and cities against enemy fleets accompanied by airplane carriers laden with war planes with a flying radius of a hundred miles or more.

Our national defense requires an air force large enough, well equipped and properly trained to defend every mile of our coast line. We can't achieve this until we have accomplished flying safely in times of peace. It's decidedly up to the Harding administration and congress to coordinate the development of every branch of government aviation and the commercial airplane industry to make America safe.—N. B. A.

CONGRATULATIONS

The Sun may be a trifle tardy in extending its heartfelt congratulations and best wishes to Dr. Harding, father of the president, and his bride, on their marriage. With many other newspapers and some millions of people it wishes them many years of unalloyed happiness.

There is an incident connected with their recent excursion into the realm of matrimony which we hope, will not be taken as carping and unwarranted criticism if it is referred to at this time.

Dr. Harding has admitted that he paid one dollar to the deputy clerk of Monroe, Michigan, as a perquisite to secure the withholding of the fact that a marriage license had been issued to him from becoming public. In a sense, it would seem that the doctor had the right to have the news of his coming nuptials treated as a matter in which none but himself and prospective bride were interested and that only unwarranted curiosity of neighbors would be gratified by having the news made public.

A similar feeling is not uncommon. It frequently turns up in connection with applications for marriage licenses

WASHINGTON PARK

The Sun feels that it is entitled to a share in the rejoicing that there is a prospect that Washington park is to be added to the playground area of the city. It has, in season after season, advocated that the congested population has the right to have this uncultivated plot of land acquired by the city and thrown open for enjoyment by the youngsters of the neighborhood.

It is unfortunate that there is any tendency to delay taking the property. There are doubtless other parts of the city which sorely need playgrounds, but surely any adequate review of the situation can only result in the conclusion that the needs of this particular section are very nearly paramount at this time. Surely no move to force the taking of another plot of ground by the city in a less needy section should be carried out as the result of threats that the price will be raised unless the purchase is made immediately. The value of the land is largely fixed by assessed valuation. In the vicinity where the purchase of another playground site is urged there are other plots, besides that most commonly urged, that can be obtained in an emergency.

The people of the Washington park section deserve prompt consideration.

CARRYING A GUN

Saturday afternoon a man entered a store in Boston and, without more formally than would have attended the purchase of a simple article such as a can of ketchup, purchased a high-powered revolver. With a deadly weapon in his pocket he went out into the streets. Within half an hour he had killed a policeman and left a wife husbandless and nine children fatherless. In due course of time this destroyer of a life very likely will be found by due process of law guilty of any legal offense because of insanity.

Such offenses are not rare. At more or less frequent times petitions are acted upon by our municipal council granting permission to sell and "lease" firearms. The business of those who receive such licenses is conducted to a large extent without supervision. Any person who has the money to pay for firearms may buy deadly weapons. It is true that the carrying of such a weapon in a concealed position is an offense under the law. But, unless an officer has reason to suppose such a weapon is being improperly carried, potential slayers are free from molestation.

It has been urged over and over again that the legislature shall take some action to bring the selling of firearms under close supervision. The deplorable tragedy that took place in Boston Saturday would seem to be calculated to give renewed impetus to such a movement.

Thousands of Lowell people enter the public library of this city every week. Within the walls of that structure they obtain an intellectual recreation which is just as necessary to them as the food with which they recoup the strength of their physical makeups. They would as soon think of going without washing as going without reading, and they know that under the able direction of Librarian Chase, the local home of books lays before them an opportunity to enjoy the finest mental stimulus. Are you one of these people? Unless you cultivate the recesses of your gray matter, you are being starved just as surely, just as relentlessly, as the individual who denies food to his body. You will experience a withering of the mind, even as the starving man undergoes death of the body. Perhaps you do read much, but do not patronize the library. Then it is for you to realize that only through that channel can you really get the most from reading. No one man, unless he be a millionaire, can have all the phases of literature at his beck and call. That is, he cannot at home. But at the library he is on an equality with a millionaire. The great minds of the earth await his pleasure.

A Lawrence paper boasts that its city "has the finest, widest principal business thoroughfare of any city of its size in New England." We are pleased to note that our neighbor shows a becoming appreciation of its smallness in its boasting.

Milk dealers, who have increased the price of their commodity while a considerable surplus exists, are not the first to undertake to defy a fundamental economic law.

Perhaps the municipal mice will be considered enough not to play during the vacation season at the chamber of commerce.

"Eastern Massachusetts to curtail," says the headline, but it does not mean a curtailment of fare charges, unfortunately.

Newbury's tax rate is only \$10 per thousand, but even at that we do not anticipate any considerable emigration from Lowell thitherwards.

The new cup for which a considerable number of yachtsmen are racing is located just outside the three-mile limit.

"Every great genius always walks alone," observes a Boston preacher. That reminds us that we often have moments of loneliness.

Five hundred persons have asked to be heard on the tariff bill. The portion who habitually vote a republican ticket will be really heard.

SEEN AND HEARD

A catastrophe is when the ladies literary society meets with no one absent to be talked about.

Movies make a man forget some troubles; but he always worries about his car parked in front.

Astronomers can measure the distance from Mars to Venus, but can they measure the distance between Tellegen and Farrar?

Another elaborate display of wonderful poor management on the part of the street railway company was made manifest at the Middlesex street depot at noon Saturday, when a brand Centre car was held 15 minutes waiting. It was said, for a Boston train. Before the waiting commenced the conductor had collected fares and punched tickets. Later he refused to issue transfers. Not only were passengers in this particular car delayed but several other cars were held up for about ten minutes.

Was Hurt All Night

A stone mason was on the witness stand describing the way in which he had been assaulted by the defendant. "He walked right into my yard and slammed me up against one of my tombstones," the witness said. "Did he hurt you?" inquired the court. "I hurt me!" roared the witness. "Why, I've got sacred to the memory stamped all down my back."

Another Tip

An Atlantic City hotel proprietor who has made a study of food and labor costs this year as compared with a year ago makes this statement: "If the prices on the menu card of your favorite restaurant do not show a reduction of from 25 to 50 per cent., you are the victim of profiteering. You might clip this and hand it to the proprietor of your restaurant on the chance that he hasn't seen it. He may take the tip."

Too Much Greens

Too many Americans are living out of boxes and cans. We need more grub from the garden. It would be good for our brains and good for our bodies. Dr. E. V. McCollum, professor of biochemistry, John Hopkins university School of Hygiene and Public Health, says we're paying the penalty by premature old age. Men and women of 40 look like 65. Mother, let's have a fresh salad for dinner.

Announcing a Visitor

At the cottage in an isolated part of the coast visitors were so rare that many of the children have never seen any men folk except those of their own household. One day the children were playing happily together, when a man was espied on the hillside, making for the cottage. One of the children, who had been gazing at the unwelcome apparition, remained staring open-eyed from the door of the cottage for a moment longer, and then rushed indoors, shouting in amazement: "O, mother, here's a thing like father coming!"

Look to Home!

Will Hays, the postmaster general, addressing the Rotarians in Washington, expounds this hot shot: "The total expenditures of the towns, cities, townships, counties, states and the federal government, except only the payments on the already contracted war indebtedness which cannot be avoided. The expenditures for economy are just as great among those as with the federal government. I propose a nationwide systematic, enthusiastic and honest movement to reduce these expenditures of local government." And Will reminds these local officials, Lowell included: "The same taxpayers pay the bills." Amen!

His Garden

"I'll have a model garden plot," he said, with joyous hope. "Experience has shown me, now, and given me the hope. The weeds shall never get ahead. Nor bother me at all. But that you—well, to be exact, last fall."

The garden plot is weedy now. The grass is waving high. The beans and peas are dying out. He doesn't know just why. But still his heart is full of hope. And he hopes. He's going to beat the weedy weeds—Next year!

—Somerville Journal.

MAN ABOUT TOWN

The activities of the Dragnet police, in sternly enforcing the automobile laws, have created much favorable comment among residents of that town. Words of high praise have been heard among Chief William H. Cullinan of the force there, and he is hailed by many an honest citizen as a savior of life and limb. Recently, stirred by successive accidents caused by careless drivers, Chief Cullinan declared war to the death, or rather war against death, upon motorists who tear madly along, taking chances with utter unconcern for the safety of the public.

The outlying districts are always especially plucky, and these conscientious speed fiends, to perform their dangerous antics. Hence the Dragnet officers are doing work which gets at the very root of much of the trouble against which State Registrar of Automobiles Frank Goodwin, and all earnest police officers are fighting Dragnet, apparently, is a "spotless town" autowise.

Despite all this clamor and dispute over bobbed hair I confess that in a disinterested way I rather like the mode. Not that I think it matters a great deal what a girl does with her hair. It's hers and she has a right to do what she likes with it. Furthermore, I fail to see how any sort of hair arrangement could possibly be either very immodest or very inefficient. Hair is superficial and somewhat superfluous stuff anyway, and I think that if the style dictated that the women should cut off their hair entirely, none of us would greatly miss it, although we might be some time in rearranging our ideas of feminine beauty. I like this bobbed hair stuff because it makes a girl look carefree, and young, and artistic—and who will be old forty enough to say that he doesn't want our young women to look all three.

STOP CORNS IN A MOMENT

Do it by a Touch. Such Pains Are Needless Now

You can stop any corn pain instantly. You can remove any corn in short order.

You can do it in a way so gentle that you'll forget the corn.

The method is Blue-jay—liquid or plaster. A touch applies it. Then the whole corn soon loosens and comes out.

Blue-jay is made in a world-famed laboratory. It is modern, scientific, right. It is fast displacing former methods, harsh and crude. Tonight thousands of people will apply Blue-jay—why not you? Watch it end a corn for you. Try it tonight.

Your druggist has

Blue-jay

Stops Pain Instantly Ends Corns Quickly

MOVING DAY FOR LOU TELLEGEN

This moving van is backed up in front of Geraldine Farrar's home in New York. The baggage which the men are lugging away belongs to Lou Tellegen. This followed the actor-husband's suit for separation from the opera star.

Officers Battle Youth on Flag Pole

NEW YORK, Aug. 15.—On the small flag pole platform of a tower of the Williamsburg bridge, 325 feet above the East river, two policemen grappled with a youth yesterday while hundreds of persons stood breathless. Subdued after a struggle, the youth, who gave his name as Joseph Herzog, was sent to a hospital for observation.

Climbing to the platform, 230 feet above the roadway, Herzog attracted the attention of passers-by by gesticulating wildly. Traffic was soon blocked and the two policemen went up after him.

Locates Heart and Kills Himself

PORT JERVIS, N. Y., Aug. 15.—"Doctor, I have always had a curiosity to know just where my heart is located," said Ethelbert Crawford, a retired New York merchant, who had called on Dr. Glazmeyer for a simple ailment.

The physician had been applying a stethoscope to the chest of the patient and, to oblige him, took a pencil and drew a circle around the location of his heart.

While Dr. Glazmeyer was writing a prescription, Crawford excused himself, went into an adjoining room and shot himself in the exact center of the circle the doctor had drawn, dying instantly. No reasons have been assigned for the suicide.

Five Die in Oil Well Fire—\$1,000,000 Loss

PHILADELPHIA, Aug. 15.—The fire at the Point Breeze oil works of the Atlantic Refining Co., in which five people were killed and nearly a score injured, was extinguished early today after a battle of more than 24 hours by virtually the entire city fire department. The loss is estimated at one million dollars.

CAN MAKE BUTTER FROM TOMATOES

BY SISTER MARY

Delicious sweet can be made of ripe tomatoes. When fruit is hard to find and expensive tomatoes may be used as a "butter."

The "little yellow variety is perhaps more delicate and makes a more attractive marmalade than red tomatoes, but if the yellow ones are not available try the red. The first recipe is better made with red than yellow.

Red Tomato Butter

One-half bushel tomatoes. 6 pounds sour apples. 8 pounds sugar. 4 lemons, 1 teaspoonful ginger.

Wash tomatoes and pour over scalding water. Slip off skins. Pare, core and quarter apples. Put apples and tomatoes in preserving kettle and cook for 1 1/2 hours. Add sugar, ginger and lemons cut in thin slices and cook until the consistency of marmalade. Pour into sterilized pint jars and seal while hot.

Yellow Tomato Preserves

One peck small yellow tomatoes. Granulated sugar, 1 lemon.

Scald tomatoes and slip off skins. Weigh. Use as many pounds of sugar as there are pounds of fruit. Use 1 lemon to every 3 pounds of fruit or the lemon may be omitted. Add half as much water as there is sugar and boil for three minutes. Add tomatoes and lemons. The lemons should be sliced very thin and cook until the tomatoes are transparent. Pour into sterilized pint jars and seal while boiling hot.

Milk

A pinch of grated horseradish put in the pan of milk will keep it sweet for days.

LATEST PICTURE OF SPANISH RULERS

The Queen of Spain riding with the king on a recent visit to Burgos.

Berton Braley's Daily Poem

Afterwards

When all my songs are finished,
When all my dancings done,
Still, still, quite undiminished,
Shall shine the golden sun;

And still, from garden closes,
When I am done with words,
Shall come the breath of roses,
The twitter of the birds.

Each day will still be bringing
The dancing, light as air,
The kisses and the singings,
But I shall not be there!

And so the lifting measure
Of song or dancing tune
Shall then bring me no pleasure
Beneath the sun or moon;

So now—while I can hear it,
I make my blithest song
And, with the gayest spirit,
I dance my way along!

And till my days are over
I'll have my joyous ring,
For when I'm under clover
I cannot dance or sing!
(Copyright, 1921, The Lowell Sun)

AGE DANCES WITH YOUTH

Louis Kretlow, 78, Chicago, and Helen Brown, 12, Newark, N. J., are the oldest and youngest members of the National Association of Dancing Masters. Here they are demonstrating, at the New York dancing convention, one of the new stately dances which will replace the shimmy and toddle.

Deny Sarah Bernhardt Ill

PARIS, Aug. 15.—Sarah Bernhardt, the world famous French actress, rumors of whose illness were current here on Saturday, is in good health, says a telegram from an editor on the staff of the Journal who is spending his vacation on the Island of Belle-Ile-En-Mer, off the coast of Brittany. He declares he saw Madame Bernhardt yesterday at her summer home on the Island.

Take your first step toward a beautiful, healthy complexion—Use Lifebuoy today.

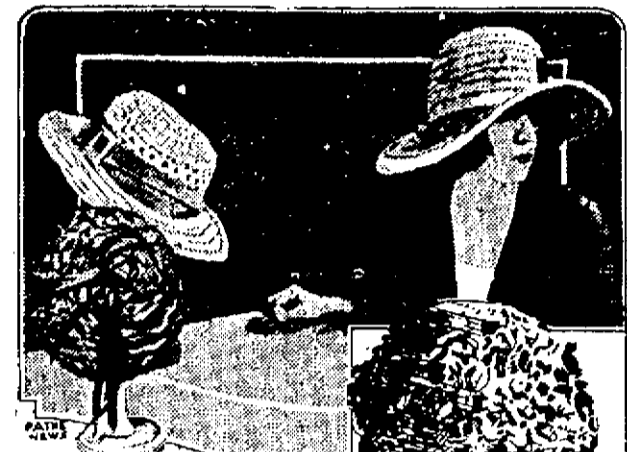

Lifebuoy's health odor is delightful.

DENBY'S PRIVATE "NAVY"

Secretary of the Navy Denby can't get away from naval matters even on his vacation. Witness him in his private "battleship" on Lake Oakland. That body of water adjoins his farm at Clintonville, Mich., and the secretary is battling the underwater denizens with hook, line and sinker.

CHARMING U. S. PAPER HATS COST \$2 EACH

BY MARIAN HALE
NEW YORK, Aug. 12.—Even the high cost of paper can't make a paper hat very expensive.

If you have never seen a paper hat as developed in the latest styles by New York is showing a lot of these paper hats. They were developed in Germany during the war.

Germany, under pressure of war necessity, evolved practical paper clothing and paper shoes, as well as hats. Now the American manufacturer is giving a more esthetic touch to the practical paper hat.

Germany is also manufacturing for the trade thousands of paper hats. Those shown here were made in Chicago and cost \$2 each.

The imitation of straw and cloth designs defies detection.

All weaves and shapes are fashioned. There is the smart urban of finely woven braid with foliage. There is another big garden hat, a sport hat, toques with paper feathers—anything you want. Oh, these paper hats are very far removed from those big crepe paper sun shades of your childhood. They are the real thing. Are you real sure your straw isn't paper?

1,000,000 Attended Pageant of Progress

CHICAGO, Aug. 15.—More than one million persons attended the Pageant of Progress industrial exhibits which closed last night, it is announced. Exhibitors reported a large volume of business during the 16 days of the exposition, one firm alone taking \$225,000 worth of orders. It is expected that the pageant will be made an annual affair.

INTERESTING PICTURES IN PHOTO CONTEST

William A. Meade of North Billerica has sent in a group of pictures to the Chamber of Commerce which are among the most interesting photos entered in the chamber's photography contest. The pictures are in the industrial class and are views of the New-England shops. They cover conditions both inside and outside the plant and are very interesting to the general public as pictorial exposition of one of Lowell's largest industries.

Many other photos have already been entered in the contest which is scheduled to run without interruption from now until October 1. With Assistant Secretary Edward W. Gallagher of the chamber returned from his vacation, the contest has taken on a new lease of life and will boom along until closing time. Pictures of any feature of Lowell will be acceptable and valuable prizes will be given to those who send in the best views. Mr. Gallagher issued a statement this morning upon the photographic field in Lowell as follows:

"Lowell is a veritable treasure box for good pictures despite any criticism in the contrary. Our city may have its dull and dark corners, but it is well off, if not better than a great many New England cities. What parks we have are kept in good condition and Fort Hill park is one of the best natural parks in the country. Take other parks in the city. Shedd park for instance, a gift to the city by Freeman Ballard Shedd. Though not entirely developed, Shedd Park will rival even Fort Hill park in beauty when completed. At present it has a very original, and pretty entrance, flanked on either side by greenery and neatly graded ground. To us apparently it means

nothing, yet to the stranger it is even better than any park in his own city. Then there is Tyler park, well known also for its naturalness; Varnum park, set aside particularly as a heavily spent in a congested district and consecrated to the memories of soldiers and sailors of Centralville who gave up their lives in war.

"Furthermore, besides having an outward semblance of beauty, nearly all our parks and public centers have memorabilia, historical, charitable, or patriotic sentiment attached to them, which adds to their characteristics as Lowell institutions.

"Monument square, with its pretty monuments, erected also through patriotic fervor, and its massive and towering background formed by city hall is another beauty spot.

"Then, one may go on describing various places in the city, by which thousands of people pass daily, but never think of their attractiveness.

"Other cities may have civic centers, pretty parks, etc., but so has Lowell. You mention other cities because you are more observing in passing through other cities and overlook the beauties of your own city."

"DAREDEVIL GUS"

PLUNGES ON ROCKS

CONCORD, N. H., Aug. 13.—A wire performer, George Oliver of Boston known as "Daredevil Gus," lost his equilibrium in sliding across the Connecticut river at an amusement park here yesterday, and plunged to the rocks below. He was taken to a hospital, where his condition is said to be serious.

TAR PAPER

If you find the opening through which mice enter your room cover it with a piece of tar paper. Mice do not like the smell of tar and will avoid it.

HE GOT EVERYTHING IN THE DRUG STORE

At Least It Seemed He Took Every Kind of Medicine Without Relief

"After a hard year's suffering from indigestion and stomach trouble Tanlac has made me feel just like a new man. The stomach trouble and indigestion are entirely gone. I am never bothered with palpitation or bloating, eat just anything I want, and relish all my meals. I am no longer nervous either, sleep good at night, and am rid of that tired, worn-out feeling. In fact, I feel fine in every way, just as fine as I could ask to feel, and I am giving my statement for the benefit it may be to others who are in a rundown condition like I was."

"My very first bottle of Tanlac helped me wonderfully, and since taking four bottles I feel like a new man. The stomach trouble and indigestion are entirely gone. I am never bothered with palpitation or bloating, eat just anything I want, and relish all my meals. I am no longer nervous either, sleep good at night, and am rid of that tired, worn-out feeling. In fact, I feel fine in every way, just as fine as I could ask to feel, and I am giving my statement for the benefit it may be to others who are in a rundown condition like I was."

Tanlac is sold in Lowell by Green's drug store under the personal direction of a special Tanlac representative; by Wright Drug Co., Billerica, Mass.; A. D. Falls, Chelmsford, Mass.; Snow's pharmacy, Concord, Mass., and by the leading druggist in every town.—Adv.

TO PROTECT RIGHTS IN YAP AND SHANTUNG

TOKIO, Aug. 15.—(By the Associated Press)—Former Premier Okuma in an interview published here yesterday was quoted as saying that if any of the powers should attempt to interfere with the agreements reached at Versailles concerning the island of Yap and Shantung, the Japanese should oppose such interference for the sake of the honor of the empire.

The fact must be recognized, M. Okuma added that Siberia is so vitally connected with South Manchuria, where Japan has invested \$400,000,000, that Japan's special position in Siberia should be accorded. Generally speaking, M. Okuma said, Japan's delegates to the forthcoming conference on far eastern questions must insist on the right of existence of the Japanese people and protection for the Asiatic peoples generally in furtherance of the principle of universal equality.

ELECTRIC CARS

IN COLLISION

A rear end collision between two electric cars occurred this morning in Middlesex street. No one was seriously injured, but a few of the passengers were badly shaken up. The cars were damaged, but were able to continue their journey on their own power.

The collision occurred at 6.40 o'clock near the corner of Carlton street. It seems that the forward car, bound for Merrimack square, stopped to take on passengers, when a car coming from the Highlands bumped its rear end. The cause of the accident is being investigated by the officials of the Eastern Massachusetts Street Railway Co.

STRUCK BY AUTOMOBILE

Eugene Kenney of 30 Plymouth avenue and James Vincent, of 32 Crosby street, received painful cuts yesterday morning when they were struck by an automobile in Gorham street. The two men were treated at St. John's hospital.

Two killed on Derry, N. H., crossing

DERRY, N. H., Aug. 15.—Ronald Rochelle, 15-year-old son of David Rochelle of 25 South avenue, and Marion Bolser, 5-months-old daughter of Mrs. Ernest Bolser of the same address, were instantly killed and the older two persons were probably fatally injured at about 7.45 last night when a train from Boston struck the automobile in which they were riding at the South avenue railroad crossing, 100 rods from the station.

Dr. F. J. Cogswell and Dr. C. E. Newell, the latter the medical referee, treated the injured persons. Mr. Rochelle and Mrs. Bolser were removed to a hospital at Manchester, N. H. The automobile was thrown 50 feet and wrecked.

The party was going home in the machine when the accident occurred. They did not see the approaching train and started to cross the tracks.

POTATOES

If you would give a pleasing taste to the potatoes you are boiling add half teaspoon of celery salt and an onion to the water in which you boil them. The onion can be served with cream.

Fallshury beach. Fireworks Tuesday and Thursday evenings.

OIL-BURNING SHIPS RUN FROM LAKES TO OCEAN

OIL-BURNER NO. 101 PASSING THROUGH CANAL LOCKS AT THE SOO

By Newspaper Enterprise SAULT STE. MARIE, Aug. 15.—Interest in marine circles today is being turned to the new oil-burning vessels built this year at Duluth for the Interlakes line and which are now plying between the head of the lakes and New York City via the Erie canal.

Four of the ships are completed and a fifth is under construction. The fourth recently passed here carrying 30,000 bushels of oats for New York City.

The boats are built especially for use in the Erie canal, are 250 feet long with 35-foot beam and use crude oil for fuel. This oil is used to operate dynamo which furnish power to the three motors which turn the propellers. The comfort of the crew is one of the principal features of the new vessels electric fans and shower baths being furnished.

There are eight hatches each having a capacity of about 11,000 bushels of grain.

"NATE" TUFTS HELPS TO RESCUE SEVEN

SCITUATE, Aug. 15.—District Attorney Nathan A. Tufts of Middlesex county and Captain Fred Franzen of the local coast guard station, in a dory, last night towed seven persons who had been drifting helplessly in a disabled motorboat for more than two hours off North Scituate. The district attorney's training as an athlete was useful in the long pull.

Bert Reed of Sand Hills took the party out yesterday on a fishing trip. On the return at night the engine refused to work while the party was a considerable distance from land. A stiff offshore breeze was blowing and the boat was carried for some distance out to sea. The party rigged a makeshift sail and worked up toward North Scituate.

Here at 7 p. m. they were seen by the coast guard. A motor boat with a crew was sent out to rescue the party. When the guard's boat got some little distance away from shore, it, too, broke down.

District Attorney Tufts, who summers at Scituate, saw through his glasses that had happened. He hurried to the coast guard station, which is not far from his own house, and volunteered to accompany Captain Franzen in his dory to the assistance of the drifting boat.

The coast guard crew rowed its disabled craft back to the station.

Hot Bath at Night and Cold Plunge in Morning More Beautifying Than Cosmetics

HOT BATHS RELAX FOR SLEEP

By MME. MOREAU

To be sure the main purpose of your bath is cleanliness. But your bath, if taken rightly, can be more than just a lathery route to a clean skin. It can restore your vitality after a strenuous day at the office or in home work. It can hasten the coming of slumber when your nerves are ragged. It can be the stimulus you need for the trying ordeal you are about to face.

Where cleanliness is the only purpose, your bath should be neither too hot nor too cold, simply a comfortable temperature.

Very hot baths are often exceedingly beneficial but you should take them only when you intend to retire immediately or follow them with a cold plunge. If the cold plunge is too the skin a clear, radiant look. They strenuous a cold shower will serve are more beautifying than cosmetics.

The purpose. This is stimulating. The hot bath, not followed by the cold plunge or shower, invites slumber. It relaxes the entire body, relieves a certain nervous tension incident to the day's routine. The sleep which follows a hot bath is most refreshing because of the relaxed condition of the body.

Cold baths should never be lengthy. To stay in longer than one minute is dangerous. When the skin is thoroughly warm is the time to take a cold bath. It is invigorating, bracing and an excellent thing for early morning. The vigorous rub-down which follows the cold bath has a tonic effect.

The hot bath at night and the cold quick plunge in the morning give plunges. If the cold plunge is too the skin a clear, radiant look. They strenuous a cold shower will serve are more beautifying than cosmetics.

Reports of Overthrow Not Confirmed

TOKIO, Aug. 15.—Reports of the overthrow of the Far Eastern Republic at Chita, which have been current here for a couple of days, are still without confirmation. But the newspapers do not deny the rumor.

Receiver of U. S. Mail Steamship Co.

NEW YORK, Aug. 15.—Federal Judge Manton today announced that he would appoint a man of independent affiliation as receiver for the United States Mail Steamship Co., which has been in controversy with the shipping board over the seizure of nine chartered steamships.

Two involuntary petitions in bankruptcy were filed against the company before the receivership hearing began and in one of these it was stated that the company admitted its inability to pay its debts and its willingness to be adjudged bankrupt. No action was taken on these sections.

A statement by A. D. Lakser, chairman of the board, charging that the company had been insolvent when the board seized the vessels, and assailing its financial methods, was filed in court.

SPORTING NEWS AND NEWSY SPORTS

MLLE. LENGLEN ARRIVES

Mlle. A. Suzanne Lenglen, the sensational French tennis star, snuggled as she reached New York on the S. S. Paris to compete for the women's lawn tennis championship of the United States at Forest Hills, L. I. Miss Lenglen is women's champion of Europe.

MAJOR LEAGUE RECORD THIS IS SLUMP MONTH FOR ATHLETIC STARS

No Changes of Pitchers in Four Games Yesterday—Record for Season

NEW YORK, Aug. 15.—A major league record for 1921 was set by the National League yesterday when there was no change of pitchers in the four games played. Of the eight twirlers Morrison of Pittsburgh pitched the best game, blanking Chicago with three hits. In the American league games at Boston shut out Washington with four hits, while Eber of Chicago restricted the Cleveland world's champion to five hits and one run. White of the Cubs, Frisch, whose batting has been prominent in many of New York's victories recently made a home run with two out in the first inning, netting the Giants more runs than Philadelphia made in the entire game. A home run by Cruise of Boston aided the Braves in defeating Brooklyn while two triples by Dauter of Cincinnati were responsible for St. Louis' defeat.

CARP TO RETIRE AFTER GIBBONS BOUT

BOULOGNE, France, Aug. 15.—(By the Associated Press)—George Carpenter will bid farewell to the fighting ring after he meets Tom Gibbons, the St. Paul, Minn., lightweight champion, in New York next January. DeCamp announced yesterday. He said that Carpenter would fight an English boxer, not yet named, in London in October or November; then he would meet a French heavyweight in Paris previous to meeting Gibbons for the light heavyweight championship of the world.

PIRATES' PROTEST IS DISMISSED

NEW YORK, Aug. 15.—Dismissal of the protest of the Pittsburgh Pirates of the National League yesterday was announced by John A. Heider, president of the National League. The game was protested on the ground that failure of umpire Klem to call a Pittsburgh man out on an infield fly had resulted in a double-play by force-out of runners at third and second bases. Mr. Heider said that no appeal could be taken on an umpire's decision in matters of fact and judgment, and sustained Klem's ruling that the hit ball was not an infield fly. The ball first hovered over foul ground and then was blown onto fair ground, where Catcher Snyder of New York, dropped it after making every effort to catch it.

TOTH TO ATTEMPT CHANNEL SWIM

BOSTON, Aug. 15.—Another candidate for the long, hard swim across the English channel emerged from the ocean at Boston light yesterday when Charles Toth of South Boston, completed the 12 miles from the Charlestown bridge in this city. His time was five hours and 37 minutes. He contended with a stiff wind and a choppy sea. The club which Toth represented has announced it will send him to England to attempt the channel swim. Sam Richards, claimant of long-distance honors several years ago, was forced by stomach cramps to abandon the swim. He was leaving at the time of his withdrawal. Toth used an adiabatic trudeon stroke, averaging 24 to the minute.

AMATEUR BASEBALL

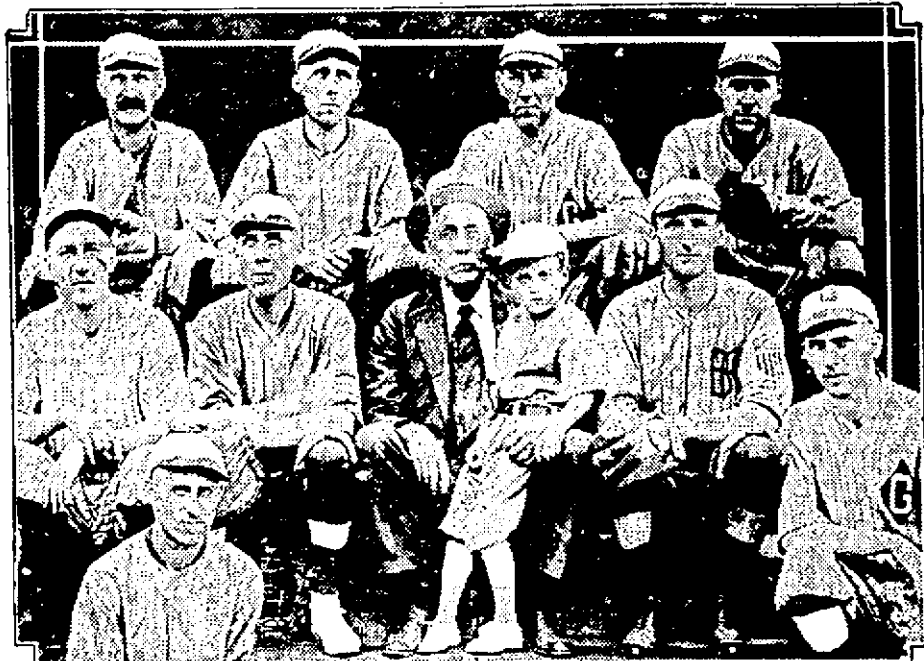

The Draught All Stars were defeated by the Willie Smiths Saturday by the score of 14-13.

The Vermont A.C. accept the challenge of the Nationals for a \$5 purse August 25, on the Vermont grounds. The Vermont A.C. is looking for games with any 12-15 year old team in the north city.

The North End defeated the Crescent A.C. Saturday by the score of 4 to 1 and also played the Emeralds on the South common but the game was called off on account of rain with the score 1 to 1. Would like to play the Emeralds any night of this week. See Manager Gizeau, at 110 Salem street any evening between 6 and 8.

MEET THE PROUDEST "PA" IN THE WORLD

His Nine Sons Have Their Own Family Baseball Team and His Six Daughters Form a Star Basketball Squad—Grandchild Ball Team's Mascot—Regrets Not Having 11 Boys

LEFT TO RIGHT, (BACK ROW) DR. VIVIAN V. J. HAYWOOD, W. TER ROW) LEONARD R. HUGH H., COLONEL T. D. GILLUM AND HARRY H. (BOTTOM ROW) G. LITTLETON (LEFT) AND WILLIAM B. AND ROY T. (CENTRAL) GRANDCHILD, THE TEAM MASCOT, CARROLL E. (RIGHT).

By Newspaper Enterprise
MADISON MILLS, Va., Aug. 15.—Colonel T. D. Gillum, pioneer merchant and miller of Madison county, has an athletic family. There are fifteen children in his brood—nine boys and six girls. All the boys play ball. They call their team the Gillum Brothers club. The girls have formed a basketball team known as the Gillum Sisters. "I'm mighty proud of my family," says Colonel Gillum. "I guess I'm about the proudest daddy in the world. There aren't fifteen such kids anywhere."

"I didn't do much ball playing when I was a kid. Didn't have time. I once objected to my boys playing baseball. After I saw the good it did them, I was for it and encouraged the girls to play basketball. 'I'm sorry that there weren't eleven boys in my flock so we could have had a football eleven.' Like the Fox The Gillum family parallels the famous 'Eddie Foy and the Seven Little Foys,' who are now on the stage. The Gillum Brothers nine only play one game a year together now. 'They used to play a lot every summer. But they are now scattered all over Virginia and the only opportunity for the team to take the field is on the occasions of family gatherings. At their annual game they renew an old baseball feud with the Flanagan family nine at Powhatan, Va. There are twelve Gillum grandchildren."

"I make it my business to furnish them with plenty of bats, gloves and balls," says Grandpa Gillum. "I want them all to be baseball or basketball players. There's nothing like athletics to bind a family together—and the bigger the flock the better."

BIG TENNIS TOURNEY THROUGH WITH HALF-SERIES OF ROBBERIES AT MAINE RESORTS

BIDDEFORD, Me., Aug. 15.—Summer colonists have become alarmed as the result of a series of robberies at Kennebunk Beach, Biddeford Pool and Prouts Neck the past four weeks and are taking extraordinary precautions. Local police at these resorts, and private detectives employed in some instances, have now been augmented by county officers at Prouts Neck. Beginning tonight five deputy sheriffs will patrol the Prouts Neck section at night through an arrangement made with Sheriff King F. Graham by a group of summer residents there, whereby they will pay the expense of the extra contingent. The latest success of the burglars who are believed to be organized and working together, was the stealing of a considerable amount of plunder from the summer homes of Philip James of New York and Dr. James Robbins of Weston, Mass., at Biddeford. This included a necklace, said to be valued at \$2000.

About \$2,000 in jewelry was taken last month from rooms in two hotels at Kennebunk beach, and a tapestry, valued at \$3,000, was removed from the Parsons mansion at Parsons beach.

MAINE TENNIS COURTS
The great interest displayed in the tennis court recently established by the park department at Shedd park for two additional courts there. The new courts will be constructed in the fall and will be ready for use next spring.

NEW LAKEVIEW PARK
Tonight is Carnival night at Lakeview. Free favors will be given to all dancers, and a general good time is in prospect for everybody. Meanwhile, Lakeview amusements are making their appeal along other lines, including fishing which line is said to be unusually good this season. Then there are bathing, roller coasting and bowling, to say nothing of the picturesque health-giving walks through the pines along Massapicutt shores. It's little wonder that all attendance records have been broken this season at Lakeview.

HE'S THE CHAMPION PEST SWATTER
He's a pest. Who? Well, the man who sneezes in your face; the motorist who hogs the road; the chap who asks: "Is it hot enough for you?" You'd like to swat your own pet, particular pest, but you darsent. Everett True does the swatting for you. Everett True is that stout, quick-tempered gentleman over on the comic page. He is the most famous comic character in the world.

Turn to the fun page and see who Everett "has it in for" today. And (whisper) Mrs. True is some swatter herself.

QUALIFIED FOR PRESIDENT'S CUP
C. E. Beane and P. W. Reilly, Jr., qualified for the president's cup in the Vesper Country club series over the weekend. Beane turned in a net score of 23 and Reilly a net score of 25. At the Mount Pleasant links the third qualifying round for the Gillespie shield and golf ball sweepstakes was held. The best gross scores were turned in by T. J. Ward and H. D. McKenzie. Walter Rowarth and Arthur P. Smith captured the net honors. In the golf and sweepstakes, A. E. Howard and J. J. Ward were tied for best gross and 18 and there was also a tie for the best net, Walter Jewett and Shepard Barrell each scoring 65.

JOHNNY BUFF
By Newspaper Enterprise
JERSEY CITY, N. J., Aug. 15.—Johnny Buff, American flyweight champion, is through fighting half-pinters until he can book Jimmy Wilde. He's going to battle bantams now.

There aren't enough flyweights in America to furnish sufficient opposition for Johnny to make a living for his wife and four kiddies. He has beaten all the Yankee flyweights.

A match with "Ally," English fly champ, is brewing for September. That's the best match in his class left. Buff's real name is John Lesky. He is Polish. His age is 33.

Fatally Injured After Making Record

TOLEDO, Aug. 15.—Less than half an hour after he had broken the world's dirt track motorcycle with sidecar record for one mile, covering the distance in 40 seconds, Albert W. Burns, 27, of Oakland, Cal., was fatally injured, when, in the first lap of a 25-mile race at the Fair Grounds here yesterday, a fellow rider crowded him, forcing his machine to skid and crash through a fence. Burns' neck was broken and he died en route to a hospital.

LOWELL K. OF C. BEATS THE BENNETT A. A.

The Lowell Knights of Columbus defeated the Bennett A. A. of Somerville Saturday afternoon at Spaulding park, score, 4 to 3.

Davidson pitched for the local boys and as it happened he was not in his usual good form. The Somerville lads were able to reach him for a total of three runs in the fourth, fifth and seventh innings with the result that Nixie Coughlin sent Cawley to the slab in the eighth. Coughlin made a superb youth from Fitchburg. Eddie was good and held the opponents to the score they had already rolled up.

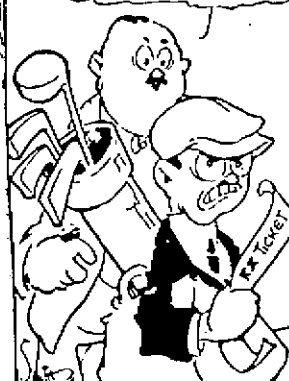

In the second inning Lowell put across the play that had much to do with winning the game. There was one out when Foye came to bat and knocked out a beautiful double. Not to be outdone Davidson followed with a screaming triple and the man who had gone before crossed the plate. Sullivan also landed a three-base hit which brought Daly across. Bracken was hit by Ryan and a minute later had purloined second. Davidson hammered a hot one out. Cawley made a superb throw to the plate that opened the way for two runs.

With a lead of four runs the future looked rosy for the local men but later in the contest when Davidson began to weaken the rosy hue faded to a dull pink and then disappeared entirely. Manager Coughlin decided the discretion was the better part of valor and so he relieved Davidson of his heavy responsibility. During the eighth and ninth there was nothing doing on the game closed calmly.

The lineup:
Bennett A. A.—Norton cf, Martin rf, Carr ss, Dewick c, O'Connell 3b, Lynch lf, Henley 2b, Granger 1b, Hartle p.
Lowell K. of C.—McVey 2b, Lynch lf, Harris 3b, Cawley 1b and p, Foye c, Daley rf, Sullivan cf, Bracken ss, Davidson p, McGowan 1b.

AIRPLANE AS HEARSE

This is said to be the first airplane funeral held in America. The coffin of an American aviator is shown on the plane which transported it from the aviator's home, in the middle west, to the cemetery. Permission to take this photograph was given on condition that no name or location be given, as members of the family had arranged the private funeral simply as a fitting tribute to a flier.

United States of Central America to Be Born

By NEWSPAPER ENTERPRISE

WASHINGTON, Aug. 15.—There is to be a United States of Central America. It will consist of Salvador, Guatemala, Honduras, Costa Rica and Nicaragua.

These five republics will bear the same relation to their federal government as our states have a central government modeled along the same lines as our own.

Next Sept. 15 probably will be the birthday of the new American republic, according to the Pan American Union here. The administration here is said to be viewing the union with friendly eyes and has removed all diplomatic barriers to the formation of the new state.

The Central American Union will comprise 170,000 square miles of fertile territory, filled with superb scenery and possibly with a hidden wealth of natural resources. It will have a population roughly equal to that of Canada.

The first step toward union was taken Jan. 19, 1921, when the Central American republics signed a treaty of federation.

This treaty provides that representatives of all the nations concerned shall meet to frame a federal constitution and outline the shape of the new state.

The constitution will, in most respects, be identical with our own. But there will be no president. Instead, executive power will be vested

in a federal council, whose members will be chosen by popular vote. Legislative power rests in an assembly like our congress, composed of a senate and a chamber of deputies. Every state sends three senators. Deputies are chosen on a population basis.

Judicial power rests in a supreme court of seven magistrates and three alternates.

The constitution will guarantee political and religious freedom to all citizens.

Primary education will be made compulsory by federal law. Secondary schools will be established by the various states. The federal government will found a national university.

The new nation will fly the flag now used by Honduras—three horizontal stripes—blue, white and blue with three white stars.

OBSERVE FEAST OF THE ASSUMPTION

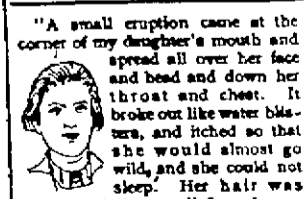

The feast of the Assumption of the Blessed Virgin Mary was celebrated in all the local Catholic churches today as a holy day of obligation. Masses were celebrated at the usual day hours. This evening there will be benediction and recitation of the rosary in many of the churches.

At the 7:30 o'clock mass at the Sacred Heart church yesterday member of the parish Holy Name society received communion in a body. Rev. John H. Donnelly, O.M.I., celebrated the mass. The usual schedule of services was carried out in all the other churches.

MAYOR TO DECIDE CRUICKSHANK CASE

The pressure of other business matters has delayed Mayor Thompson in making his ruling in the case of Alexander Cruickshank. Against Supt. Edmund Welch of the police department. A hearing was held on the matter three weeks ago at which time Mr. Cruickshank sought to show that the superintendent had treated him discriminatorily and that a break in his place of business had not been investigated by the department. The mayor expects to make his decision within a few days.

Mrs. Ethel M. Brown Tells How Cuticura Healed Daughter

"A small eruption came at the corner of my daughter's mouth and spread all over her face and head and down her throat and chest. It broke out like water blisters, and itched so that she would almost go wild, and she could not sleep. Her hair was matted and she was disfigured. My sister recommended Cuticura, and when I had used one box of Cuticura Ointment with Cuticura Soap my daughter was completely healed." (Signed) Mrs. Ethel M. Brown, 396 Water St., Ellsworth, Me., July 29, 1920.

Clear the pores of impurities by daily use of Cuticura Soap and occasional use of Cuticura Ointment as needed to soften, soothe and heal. They are ideal for the toilet, as is also Cuticura Talcum for perfuming. Beware cheap imitations. Address: Cuticura Laboratories, Dept. B, Station 44, Boston. Sold everywhere. Beware of Cuticura in the name of Cuticura Soap without name.

FUNERAL OF MURDERED PRIEST HELD

SAN FRANCISCO, Aug. 15.—While the police Saturday continued questioning William A. Hightower, itinerant baker, held in connection with the death of Rev. Patrick E. Heslin, funeral services for the murdered priest took place at St. Mary's cathedral, with thousands in attendance. Interment was in Holy Cross cemetery, a short distance from Fr. Heslin's parish at Colma.

Hightower, whose action in leading the police to the spot where Fr. Heslin's body was found in the sand along the Pacific ocean led to his being held as a suspect, has, according to the police, made a number of contradictory statements, which, when called to his attention, caused him to become surly, stubborn and uncommunicative. Once

FR. HESLIN

Saturday he clamped his hand over the lens of a camera in the hands of a newspaperman and said testily: "That's enough."

James Murray, expressman, brought yesterday to the police station a rent flap which he said he had found 25 ft. from Fr. Heslin's grave at Salala beach. There were black and red spots on it.

Murray also had a 45-caliber pistol bullet which he found on the grave. Hightower, according to Capt. Matheson, admits that he owned a tent which was found in his room and that he had taken the tent to a point near the grave and set it up there.

"I used it for a picnic party," he explained. Then Hightower was faced with a target rifle, a holster for a 45 automatic pistol and a holster belt containing two 45-caliber cartridges, all of which were found under his name in a San Francisco pawnshop. The police said he admitted ownership.

The police said yesterday that Hightower had eaten little or nothing since the examination began.

Droughts and Famine Needless Says "Rainmaker" Hatfield

Tells Plan He Followed to Produce Record Rainfall in Drought Stricken Areas of Canada

CHARLES M. HATFIELD, THE RAINMAKER AND PLANT HE USED IN ALBERTA OPERATIONS.

Droughts, starvation, famine—they are needless, says Charles M. Hatfield, the rainmaker—whose operations in Alberta during the past three months were followed by a record rainfall which saved millions of dollars' worth of wheat.

Though United States Weather Bureau officials and other scientists belittle Hatfield, his operations in several western and Pacific coast states during the past 20 years have been frequently marked by rain—once, in fact, near San Diego, by a flood.

In the following article, written especially for The Sun, Hatfield tells the plan he employed to produce rainfall in Canada in a summer marked by general drought throughout the world, with famine in Russia and China, and crop ruin in the British Isles, and farm failures in many other regions.

By CHARLES M. HATFIELD
I have just returned from successful operations in Western Canada, a section of the country that for the past four years has been in the throes of such a drought that practically no grain has been raised.

Farmers there had been attracted by rain-making work in semi-arid sections of our western states, and I was requested by my record in the states includes 23 successful commercial contracts with chambers of commerce, city councils and other municipal bodies.

Called to Canada
I was requested by the United Agricultural association of Medicine Hat, Alberta, to conduct a series of demonstrations to see what the results in the way of rainfall would be, following the operations upon the atmosphere.

During the summers of 1917, 1918, 1919 and 1920 the average rainfall over this portion of Western Canada has been only two inches. My proposition to the association was to increase the rainfall and bring about the largest possible rainfall during the months of May, June and July, the time of the year when most needed.

I began my operations on May 1 of the present year and finished August 1. And the records of the various rain gauges stationed over the territory show that during this period over two and one-half inches of rain being registered. As a result of this increased precipitation, the crops of Southern Alberta and Saskatchewan will yield all the way from five to forty bushels to the acre.

Remarkable Results
This has been a remarkable year over this portion of Western Canada. A view of conditions as they are to the south, west and north, leads one to believe that some force must have been at work in this section, so pronounced.

SPRINKLE-BLOW RETURNS

"DID YOU CATCH OLD WHIZZY TORNADO?" THEY ASKED.

After Nancy and Nick had taken the near boards back to their home by the barn-door, they returned to Whispering Forest, where they met Mr. Sprinkle-Blow with his lasso waiting for them.

"Did you catch Old Whizzy Tornado?" they asked, noticing how tired the Fairy Weatherman looked.

"Sprinkle-Blow shook his head. "No," he said, "the old fellow went too fast for me. My magic umbrella can only go a hundred miles an hour, and he can go about two hundred. But he knew that I was after him, so he hurried across forty states and a dozen rivers and two oceans and some mountains to his home in the Cave of the Winds at the End of the Earth, and slammed his door. But I don't think he'll come out again for awhile, so the best thing we can do is to hunt up all these lost creatures and take them home."

The three of them got busy. The poor Zoo animals were scattered all

through Whispering Forest, some of them with homes, but more without.

The monkey boys were found in Cob Coon's house in the tree, where Whizzy had blown them. Cob couldn't imagine what or who they were and wouldn't go home, and slept two nights in the sugar-bush. Mr. and Mrs. Pelican landed on the edge of Ripple Creek, near the Willow-Tree Pool, and as Blackie Bass and his friends said afterwards, never had they seen such Appettites. They vowed they'd never complain of Cob Coon and Marty Mink again.

The lion scared everybody to death with his mighty roar, and when he wandered up and down the forest paths, never was there such a scurrying. Tiger and the elephant, the llama and the moose, all were wandering round with no place to go. Whispering Forest had turned into a perfect jungle.

(To Be Continued)

MAN OF MYSTERY SAID TO BE SMALL

Officer Certain He is Man for Whom World-wide Search Has Been Made

Detective Substantiates Reports That Man is Legless and Appears to be Dazed

DES MOINES, Ia., Aug. 15.—A man of mystery who, according to Frank Hartly, former assistant chief of police, has been under surveillance here for six months, as Ambrose Small, missing theatre owner, may be brought from his place of hiding today, Hartly announced.

Hartly said he was certain that the man is the Toronto millionaire for whom a world-wide search has been in progress since his disappearance in December, 1918.

Hartly said he had been in communication with Toronto authorities, and that since one would be more than a Canadian city to verify the identity of the man. He said Mrs. Small might come here.

Hartly refused to discuss the condition of the man he asserts to be Small, but John J. Brophy, former chief of detectives who with Marshall Miller, former superintendent of public safety, assisted Hartly in his investigation, said that the man is lying in an isolated farm house just outside of the city limits and that he could be reached in an hour's time when wanted.

Brophy substantiated reports that the man is legless, and said he appears to be dazed. Brophy intimated, however, that he was injured by a fall and not by gun shot wounds as previously reported.

Brophy said the man believed to be Small was brought to Des Moines more than a year ago. He intimated that he was brought here by John Doughty, Small's former secretary, who is serving a term in a Canadian prison for the theft of some of the millionaire's stocks and bonds. Hartly says the man was fairly well supplied with money and that he was left in the care of a family who promised to keep his whereabouts a secret.

A reward of \$50,000 has been offered for Small's return to Toronto.

Local police officials today were inclined to question the story given out by the detectives.

MILL WILL SHUT DOWN FOR HOLIDAYS

The employees of the Merrimack Mfg. Co. will work a full week this week, the first in a long time, but on Saturday the plant will shut down for two weeks. The shut-down will be made in order to follow a custom established at the mill several years ago by which the operation is given a two weeks' vacation every summer. The plant will cease operations Saturday noon and will not resume activities until Tuesday, Sept. 6, the day following Labor day.

As far as could be learned no other local cotton mill is contemplating a shutdown at this time. There are but three cotton mills operating full time in Lowell, the Massachusetts, the Appleton Co. and the Bay State Cotton Corp., and officials of these plants stated today that no change in the schedule of operations is being contemplated. The Hamilton Mfg. Co. is running part of its plant full time, while the remainder is on a three-days-a-week schedule. The Tremont & Suffolk has also curtailed its working hours to a great extent, while the Boot mill is operating about two-thirds of its working force three days a week. There is no talk of a vacation at these mills. The position of agent at the Boot mill, made vacant by the death of Fred Lacey, has not yet been filled, and it may be several weeks before any appointment is made, as Treasurer Fletcher left on a three weeks' vacation Saturday.

BROCKTON MAN DROWNED

HULL, Aug. 15.—Ernest Anderson, 45, of 115 Nelson street, Brockton, was drowned off Hull yesterday morning when, while rinsing a coffee pot, he pitched into the water from the pier.

TO THE BEACHES

King of the large open cars of the Eastern Massachusetts Street Railway company, carrying 542 passengers left Merrimack station for the beach at 6:15 o'clock yesterday morning. The return trip was made at 7 p. m. Another electric with fifty people aboard left the square at 9 o'clock for Salem Willows.

CARD OF THANKS

We wish to express our gratitude to our many friends for their deep sympathy and kindness extended to us in our recent bereavement.

WILLIAM H. BUTERFIELD AND FAMILY.

WALTER E. GUYETTE Auctioneer

Office, 53 Central Street, Lowell, Mass. Telephone 2415.

Wednesday, August 17, 1921, at 3 O'Clock P. M. At 431 Wilder Street—Highlands

This residential property, consisting of a full two and one-half story house, stable, garage and about 1647 square feet of land more or less, is hereby placed to the highest bona fide bidders at unrestricted public sale.

The house has 12 rooms and bathroom, pantry and sink room. On the first floor are reception hall, parlor, double living room, dining room with china closet, kitchen, pantry and sink room and back shed. Second floor has seven chambers and bathroom. The third floor can be used for either storage or chambers if one desires, as four rooms are sheathed and would make splendid bedrooms if need be. The cellar is high poated, has cemented floor. The house is supplied with hot tubs, and steam heat (Crawford boiler), has hot and cold water, has gas throughout, and has an extra large supply of closet room, has hardwood polished floors in all but two rooms downstairs and has hardwood floors in the chambers.

The stable would accommodate four machines, in addition to the garage, which will accommodate one car, has cellar under stable and loft overhead. The lot has a total area of 1647 square feet, with an attractive frontage on Wilder street. There are concrete walks and driveways.

The location is ideal; it is known as one of the very best sections of the Highlands district. It is within one-half minute's walk of both the Westford street and the Highlands car line; it is within two minutes' comfortable walking distance of the Moore grammar school, and in the centre of many choice homes, and with the sale open buyers to secure a home in an excellent neighborhood. The house can very easily be converted into two apartments, and the premises has made to yield a substantial revenue, for in addition to the income from the flats rents may be had from the stable and garage.

Terms—\$200 must be deposited with the auctioneer just as soon as the property is struck off. Other terms made known at sale.

By Order of MIDDLESEX CO-OPERATIVE BANK, William D. Brown, Treasurer.

DEATHS

WARD—Miss Julia Elizabeth Ward died yesterday at her home, 152 Fletcher street, aged 52 years, 2 months and 31 days. She was the daughter of George Whitefield and Jennie (Emerson) Ward, and sister of the late William Ward. She was born at Plymouth, N. H., June 3, 1832. She attended Mount Holyoke seminary, graduating in 1857, and receiving the degree of doctor of literature in 1901, after the seminary had become a college. For 10 years following her graduation from the seminary Miss Ward returned there as a teacher and in the 10th year became associate principal and later president, a post which she held until 1882. Later Miss Ward was private teacher of English literature. She was a member of Mount Holyoke alumnae and of the Middlesex Women's club. She is survived by two nephews, Rev. George M. Ward, D.D., and Francis L. Burnham, and four nieces, Miss Adelaide Ward, Mrs. Francisco J. Manrique, Mrs. Horace P. Finch and Miss Julia E. Burnham.

TANOUSIOPOLLOU—Basiliki Tanousiopolou died yesterday at her home, 116 Dunbar street. The body was removed to the rooms of Undertakers C. H. Molloy & Sons.

SMITH—Miss Lilla F. Smith, a well known young resident of the Sacred Heart parish, died yesterday morning at her home, 218 West Manchester street, after a brief illness. She was a member of the Children of Mary sodality and was prominently identified with the charitable and social activities of the parish. She leaves her mother, Mrs. Katie Smith; two sisters, Mrs. James Howard of Lowell and Mrs. Arthur Rousseau of North Chelmsford, and three nieces, Doris and May Howard and May Rousseau, and one nephew, Bertram Rousseau.

BROOKS—Mrs. Sarah J. Brooks of Lowell, died yesterday in Worcester, aged 62 years and 5 months. She is survived by her husband, Albert E. Brooks of this city, one daughter, Mrs. David E. Spaulding, of Brooklyn, N. Y., and four brothers, R. Brady, a young resident of the Sacred Heart parish, died this morning at her home, 535 Lawrence street, aged 29 years. She leaves besides her parents, Thomas E. and Mary (Moriarty) Brady; four brothers, Edward P. Brady, John and Frank Brady, Miss Brady was a graduate of the class of 1913 of the Lowell high school and a member of the class of 1915 of the Holy Name society of St. Michael's church, and the Machinists' union.

DORAN—Mrs. Annie Dyer Doran, widow of John Doran and an attendant of St. Patrick's church died yesterday at the home of her sister, Mrs. Matthew J. Teevan, 355 Fletcher street, Grand and one sister, Mrs. Matthew J. Teevan, of this city, and a brother, James Dyer, of Providence, R. I.

KELLY—Patrick J. Kelly, a well known resident of this city for the past 25 years, died this morning at his home, 251 Central street, after a prolonged illness. Mr. Kelly was for many years in the service of the Boston Bottling Co. He is survived by his wife, Mrs. Julia Kelly; two daughters, Misses Annie and Mary Kelly; three sons, Edward, Joseph and Patrick Kelly; four sisters and three brothers in Ireland. He was a member of Div. 8, A.O.U. The body was removed to the parlors of Undertakers M. H. McDonough Sons.

HARRISON—The funeral services of James Harrison were held at the rooms of Undertaker W. Herbert Blake, yesterday afternoon at 2 o'clock. Rev. Cecil Hayes, pastor of the Paige Street Baptist church, officiating. Highland Veritas lodge, I.O.O.F., was represented by T. J. Dwyer, G. G. Oscar Bessey, T. G. Lloyd Flint, R. G. Norman Bartlett, warden; Charles Frost, conductor, and Paul Mertrude, chaplain. The funeral services were held at the home of the deceased, 251 Central street, where the burial service of their order at the grave. The flowers were numerous. Burial was in the family lot in Edson cemetery, where the committal service was read by Rev. Mr. Hayes.

KEIRSTEAD—The funeral of Levi S. Keirstead took place from his home, 25 Lupine road, yesterday afternoon at 2 o'clock. The services were conducted by Rev. W. Judson Sizer, pastor of the Worthen Street Baptist church. Appropriate selections were sung by Mrs. William Kennis and Mrs. William Thompson. The bearers were Fred Thompson, Norrith Northrup, Harvey Keirstead and Earle Keirstead. The floral offerings were numerous. Burial was in the family lot in Edson cemetery, where the committal service was read by Rev. Mr. Hayes.

CONLEY—The funeral of Mrs. Ellen Howard Conley took place yesterday afternoon at 3 o'clock from her home, 125 Adams street, and was very largely attended. The bearers were Messrs. John Griffin, Thomas P. Delehanty, Richard Harty, Martin Joyce, Thomas Griffin and Michael Logan. There were many floral offerings. Burial was in the family lot in St. Patrick's cemetery where the committal prayers were read by Rev. James P. O'Donnell & Sons.

LECLAIRE—The funeral of Mrs. Pierre Leclaire took place this morning from her home, 47 Moody street. A Libera was chanted at St. Jean Baptiste church at 10 o'clock by Rev. L. J. Brassard, O.M.I. The choir, under the direction of Joseph Paradis, who also presided at the organ, rendered the Gregorian chant, the solos being sustained by Dr. J. E. Nolet and Mr. Paradis. The bearers were Absalon Patenaude, Michael Buote, Gedron Ber-

card of thanks

To our many kind friends and neighbors who take this means of expressing our sincere thanks for the many acts of kindness and words of condolence extended to us in the death of our son and brother and also to those who sent floral tributes and spiritual bouquets. To all we are deeply grateful and promise that their kindness shall never be forgotten by us.

MRS. CLANCE AND FAMILY.

CARD OF THANKS

We wish to extend our sincere thanks to our relatives and friends for the beautiful flowers and expressions of sympathy offered over the death of our beloved mother, Mrs. Celestin Brunelle. To all we are grateful and their kindness will ever be remembered.

MRS. ALPAIDE REBARD, MRS. CHARLES GEFROY, MRS. ADELARIE DUNN, MRS. JOSEPH CONNOL, ARTHUR BRUNELLE, HENRI BRUNELLE.

ANOTHER DOLLAR

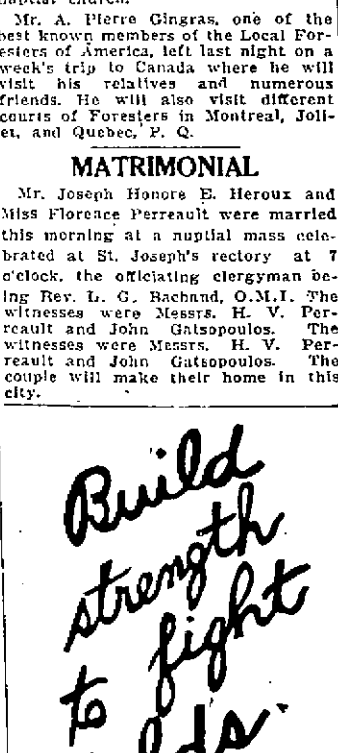

DAY AUGUST 27

At a recent meeting of some of the representative business men of Lowell it was practically decided that the next "Dollar Day" will be held on August 27. Although this decision is not final it was stated that "Dollar Day" will be held on that date unless something occurs to make another date more advisable. The coming of "Dollar Day" is looked forward to with expectation by Lowell housewives because of the fact that on that day many extraordinary bargains are said to be obtainable in the local stores.

Japan has over 25,000 factories employing two million people.

WHO WOULDN'T LIKE TO BE TEN YEARS OLD?

Build strength to fight Colds. Father's John's medicine. No Alcohol. No Dangerous Drugs.

LILLIAN ALBERTSON IS HER BOY'S "PAL"—SHE MOTHERS HIM, PLAYS BALL WITH HIM, AND TRAINS HIM TO BE A GENTLEMAN.

BY ALICE ROHE

NEW YORK, Aug. 15.—"I think it is not a professional woman's duty to have a child unless it expresses herself."

"If she does have a child 'she should sacrifice everything' else for it."

"A woman who is happily married and economically fitted to rear children is a blacker if she shirks this creative fulfillment."

"Some women express their creative force through children, others through a career. It is difficult to have both a career and children at the same time. They do not make for teamwork, but they work perfectly—tandem."

So says Lillian Albertson, who, having given up her career to have a child is—after eleven years—returning to the stage.

"My boy is 11," said this youthful mother. "He is now old enough to go to boarding school. Right now he is in camp—his first separation from me."

"He is strong, sturdy, intelligent, respectful and above all else he is kind, thoughtful, considerate of others."

"What more can a mother do to start a child on life which must be an adjustment to society?"

Miss Albertson, who is soon to appear in "The Six-fifty," says that having fulfilled her destiny of motherhood it is equally her duty to give expression to her creative ability in another direction.

"Just as I desired to marry and have a child—and was willing to give up everything for that child—I now feel it is my duty to myself to give the best that I have toward my career."

"Sometimes you read criticisms of an artist who rejects maternity and prefers her career. In the case of an artist like Geraldine Farrar, it would indeed have to be a marvelous child to compensate for what she and the world would lose in her career."

"The mere bringing a child into the world," Miss Albertson continued, "isn't the fulfillment of a woman's duty to society or to her child. It is the making of the child a worthy member of society that takes time from the artist's career."

"Of course, I think that the woman who has experienced motherhood has had the Great Experience—but it is for the artist herself to decide whether a child will express her so well as her career."

BY MARIAN HALE

NEW YORK, Aug. 13.—Is there any grown-up devotee of fashion who wouldn't want time to turn backward and make her a child again "just for a night" and longer—if she could have a party dress and cape like this?"

Now wonder 10-year-old Marguerite Churchill, who posed in these lovely Gloria frocks, looks happy.

The ten-year-old and her 11 and 12-year-old "set" have quite as much attention given to their fashions as their older sisters.

The Gloria party frock of changeable pale blue silk has a basque effect with pannels falling over the cream lace skirt. Georgette roses in pastel shades trim the pannels and one sleeve only is quaintly festooned with these flowers. Tiny bows appear to fasten this frock down the back.

The party cape is of the same blue silk and is lined with orchid georgette with frills in pastel shades. A big heret collar and ruchings of the silk give Miss Ten-Year-Old a very elegant appearance.

Little Miss New York is typified in the chic and elegant gray crepe with its touches of yellow. The straight waist with its short sleeves edged with a pleated frill, is joined to the accordion-pleated skirt with garlands of wool flowers, gray with yellow centers. The French bonnet worn with this Gloria frock is of gray with the yellow suggestions.

Judge Enright Instructs Probation Officer Not to Release Drunken Offenders Outside Court Room

WILD WEEK- END ORGY

Forty-two Drunks Listed on
the Police Court Docket
Today

Court Threatens to Send
State Officers to Investi-
gate Dracut Camps

A radical change in police court procedure was announced from the bench by Judge Thomas J. Enright this morning, when his Honor declared that he had instructed the probation officer to release no more drunks without bringing them into court. The startling news of a new policy of severity came as the climax to the wildest week-end orgy of drunkenness here in the history of Lowell since liquor went under the ban. Sensation followed sensation throughout the session. A warning that he would have state officers sent to the Dracut camps, unless conditions improve there, came from his Honor when that township was represented by the arrests of many roisterers taken into custody for drunkenness under sundry circumstances of aggravation over Saturday and Sunday. Dracut, in the summer colony section, has become a "place of abhorrence," declared Judge Enright.

Forty-two drunks were listed on the docket. There were fourteen releases by the probation officer, the last of the kind to take place here under the court's new order. Six men were sentenced to jail or the state farm, four were fined, three suspended sentences were imposed, and a large number of cases were filed after the lucky ones had been sharply lectured.

The court room was crammed to the doors, while many necks craned in the passage without, at the opening of the session. The prisoners exhibited a large heavy of occupants, mostly charged with indulging in the cup. One became so obstreperous that he had to be taken down stairs to a police station cell. Four were so drunk that they could not be brought into court at all.

Two defendants were charged not only with drunkenness, but also with operating motor vehicles while under the influence of liquor. William W. Arbo, said Officer Small of Chelmsford, narrowly avoided an accident while drunk and driving. He was held in \$500 for a continuance. George Carpenter, charged with operating on Central street, behind under the influence of intoxicants, pleaded guilty, and got two months in the house of correction. He appealed, and was held in bonds of \$300.

Wild Time in Dracut

A veritable bacchanal apparently took place in Dracut over Sunday, and the officers of that place, under the direction of Chief William H. Cullinan, made wholesale arrests. Judge Enright, after threatening to have state officers despatched to that section for a clean-up, stayed the situation there in the strongest terms. People who have purchased camps there, said his Honor, have found their property ruined as to its value, by the conduct of revellers from Boston's suburbs and other places. Two of such, James Geary and John J. Igoo, were ordered sent to jail for a month. Geary was four-monthed, while Igoo was violent while being arrested, testified officers, one of whom the latter defendant emote with the handcuffs which had been applied. Alderlie, Rondeau, said the Dracut officers, was neither foul-mouthed nor violent, but he was almost walking around in a circle, apparently senseless from drink. He paid a \$5 fine. Martin Dannehy drew a suspended sentence.

Judge Enright, in the course of the trial of the Dracut cases, took occasion to mention scores of complaints he has received from people who reside there. These complaints, according to the judge, depicted debauches of liquor-drinking and disorder, shouting and cursing throughout the hours of the night, and immoral actions on the part of women brought to the resort by drunken and riotous campers. "It is

Greeks Launch Second Offensive Against the Turkish Nationalists

SMYRNA, Aug. 15.—(By the Associated Press)—The Greeks have begun a second offensive against the Turkish nationalists who are retreating rapidly toward Sakaria River without offering resistance.

Says Britain Ready to Renew Conflict

BELFAST, Aug. 15.—The Irish News, the nationalist organ of Joseph Devlin, in commenting today on the Irish situation says: "We have excellent, indeed unquestionable, authority for stating that the British governmental propositions for a renewal of the conflict in Ireland, consequent on the possible abrogation of the truce which has existed since July 11, have been speeded up within the past three days to such an extent that they now are practically completed."

The Northern Whig, unionist, says: "We have no hesitancy in saying that the terms which the premier offered the Sinn Fein would, if given effect, tend to bring about disintegration of the empire."

CALL TROOPS AS MILLS REOPEN

Two Companies Held in
Readiness for Possible Dis-
orders at Concord, N. C.

Mills Had Been Closed Sev-
eral Months Because of
Strike Involving Wage Cut

CONCORD, North Carolina, Aug. 15.—Two companies of state militia were held in readiness here today to suppress possible disorders growing out of the reopening of a number of cotton mills, closed several months because of a strike involving a wage cut of about forty per cent. Several thousand workers were involved in the strike and minor disturbances last week when several of the smaller mills resumed, led city and county authorities to appeal to Governor Morrison to send troops today as a precautionary measure.

The strikers have maintained a line of pickets around the mills and frequent small clashes have occurred. With the general reopening of mills today the authorities feared the situation might get out of control and this prompted the call for troops.

LOCAL MILK SITUATION

Supply Greater Than the
Demand Yet the Price is
Boosted

Was there any real necessity for
an increase in the price of milk in
Lowell on August 1 from 14 to 15
cents per quart?
Lowell householders are beginning
to ask this question with more or
less frequency in view of the as-
sertion of Melvin F. Master, city milk
inspector, that there is at present an
excess of milk in Lowell and the
surrounding towns and that the sup-
ply is far exceeding the demand.
The people who buy milk at retail
day in and day out fail to understand
why the old law of supply and de-
mand should be thus violated or why
they should be called upon to pay
more for milk now, when it is
abundantly plentiful, than they paid
when the producers had all they
could do to meet the demand.
Some of the dealers here and in
the neighboring towns have refused
to advance the price of milk despite
the mandate of the New England Milk
Producers' association, an organiza-
tion which has a more or less firm
grasp on the milk supply of eastern
New England, that the price should
be advanced one cent per quart on
August 1. Many of the local dealers,
however, remained at the old price, 14
cents, and thereby hangs a tale of
confusion in the usually placid rou-
tine of the milk business in this sec-
tion.
The only reason advanced for the
increase, as far as can be ascertained,
is that it was "seasonal" and that it
was done every year. Under normal
conditions cows give less milk in Au-
gust and September than during the
early part of the summer chiefly be-
cause of scarcity of good grazing
ground.
Cows have been giving more milk
so far this month than they usually
do in August, according to Inspector
Master. The grazing pastures have
been parched and burnt and the
animals have not been irritated by
insects as much as in other years.
All these factors have tended to
create an excess of milk here and
milk dealers are between two fires

LONDON, Aug. 15.—(By the Asso-
ciated Press)—England today faced a
crucial period in the negotiations look-
ing to the establishment of peace in
Ireland. The unexpected action of the
British government yesterday in mak-
ing public letters exchanged between
Prime Minister Lloyd George and
Eamon De Valera showed the people
that a virtual deadlock exists, and al-
though the door was declared to have
been left open for further parleys, it
was apparent that the situation was
one of critical gravity.

It appeared the next step should be
made in Dublin, as Mr. Lloyd George
literally "laid his cards on the table"
yesterday, and it seemed that Mr. De
Valera and his colleagues must meet
the situation thus created.
Whether they would issue a state-
ment today, or would wait until the
opening of the Irish republican par-
liament tomorrow, was uncertain. The
purpose of the precipitate action of
the government in making public the
British proposals and the demands of
the Irish republicans had not been dis-
closed, but it would appear that the

YO. HO! FOR SAILOR GEORGE! (YEP, IT'S THE KING)

A worthy seaman is George, king of England. The royal yacht Britannia competed in the races at Coves and the king pitched in with the stalwart seamen to hoist the mainsail, thereby proving his right to wear the sailor's cap.

IT PAYS TO ADVERTISE

Armand T. Gaudreau graduated from the University of Maine. Then he tried to land a good job. Failing in that he appeared on the streets of Boston in his cap and gown selling newspapers. This, to change his fare from doughnuts to steak. Now many offers of suitable jobs have come to him. The picture shows him selling papers to two fair damsels.

HOW IS BUSINESS?

This question is asked us many times every day.

It's the same everywhere. Business is very good where the dealers have made an honest cut in price.

OUR AUGUST FURNITURE SALE IS A WONDERFUL SUCCESS

With Mark-Downs from Former Prices of 20% to 40%

Why wouldn't we sell a lot of Furniture, Rugs, Linoleum, Beds, Bedding, Baby Carriages, Refrigerators, etc.?

You Can Depend On

To Keep Things Stirring.

WESTFORD LEGION POST CARNIVAL

One of the biggest and most successful events conducted in the town of Westford in a long time was the carnival, which was held at Abbot's field Friday night and Saturday under the auspices of Westford Post 153, American Legion. The program on the opening night consisted of a midway and general dancing and those in charge of the various booths reported a very substantial business.

An exhibition drill was given, those participating being Westford post under the direction of Sgt. D. Wilson; Groton post commanded by Sgt. Cedric Hodgeman and Chelmsford post under the command of Sgt. Lev Pope. The judges were Lieut. Griswold, Lieut. Fontaine from Camp Devens, who awarded the prize being a silver trophy. After the drill there was a baseball game between the Abbot's and Lawrence club, the former winning by a score of 1 to 3.

Sporting events were held the winners being as follows: 100 yards dash open, won by J. Phillips of Lawrence; J. Connors, second; Joe Cantin, third. Broad jump, won by J. Phillips; W. Blanchard, second. Boys' race, over 14 years, won by G. Remington, of Ayer; A. Sacker, second; A. Millett, third; boys' race under 14, won by E. Millett; J. Sempie, second; G. Gingham, third. Three-legged race, won by Connors and Cushing; Socka and Cantara, second; junior three-legged race, won by Millett and Blott; Mills and Phillips, second. Girls' race, won by Louise Hosmer; Jennie Blott, second; girls' potato race, won by Jennie Blott; Louise Hosmer, second. Girls' midfoot potato race, won by Little Miss Canlin; Miss Wicks, second.

The whole affair was in charge of the following committee: General committee, Dr. H. R. Coburn, chairman; assisted by E. T. Hanley, Joseph Costello, George Wilson, Arthur W. Hildreth, treasurer. Sports: Seth Banister, Dr. Fabyan Packard; mid-way committee: John Spinner, Charles Robey, assisted by George Brullard, Joseph Murphy, F. J. Fitzpatrick, John B. Gray, Harvey Patterson. Others who assisted were George Hanson, Fred and Richard Pickin, Leon Hildreth, Joe Costello, William Wall, John Vanderpool, Everett Wright, William Mills, Phil Healy, E. T. Hanley, Raymond Charlton, Joseph Perkins, Alfred Couture, Dr. Packard, Frank C. Johnson, Harold W. Hildreth and Jacob Heiko, Eugene Guichard, George Wilson.

The following did great work in the refreshment booth: Mrs. Charles Robinson, Miss Marjorie Seavy, Maud Robinson, Elizabeth Spinner, J. Costello, Frances and Alice Wright, Miss McCoy, Lillian Sutherland, Ruth Sargent, Ruth Johnson, Mrs. A. M. Wells, Mrs. C. E. Hildreth, Marden, Morton and Gordon Seavy, Mrs. Bosworth, E. T. Hanley, H. W. Hildreth and Ed. Clement. Dance committee: J. Edward Clement and Fred Pickin.

The members of the Westford squad who won the silver trophy were: Sgt. George Wilson, Seth Banister, Alfred Couture, Fabyan Packard, Frank C. Johnson, Charles Robey, Jacob Heiko, George Brullard and Eugene Guichard. The grounds were well looked after by Harry E. Whitney, chief of police, Alonzo Sutherland, Charles Robinson, Comrade Chester Halseid and Officer A. Rutter and A. W. Hunt of the Lowell police department.

GRASS STAINS

Grass stains can be removed if they are soaked for awhile in alcohol and then washed in clear water.

White gloves with black ribs a white posey in the buttonhole, a pearl-gray derby and a gold-headed cane. If you wear these you're in style for the afternoon. For the gentleman so dressed above is none other than King George, himself, on the way to the Goodwood races. Interest in racing in England has increased by leaps and bounds since the war. Never in history has the sport been more popular.

PRINCESS LODGE

The annual outing of Princess lodge, 134, Ladies' Royal Orange association, was held Saturday at Rove. There was a large attendance and all present enjoyed the program immensely. The success of the affair was due to the efforts of Sister May Colburn and Brother John Robinson.

SILK STOCKINGS

Hang silk stockings in a shady place. The sun rots them.

A new blouse for an old one

THE wonderful Twink flakes will make a new blouse of your old one in the twinkling of an eye.

Choose your favorite color from the twenty lovely Twink shades, stir the flakes into hot water and wash and dye your faded blouse in the one operation.

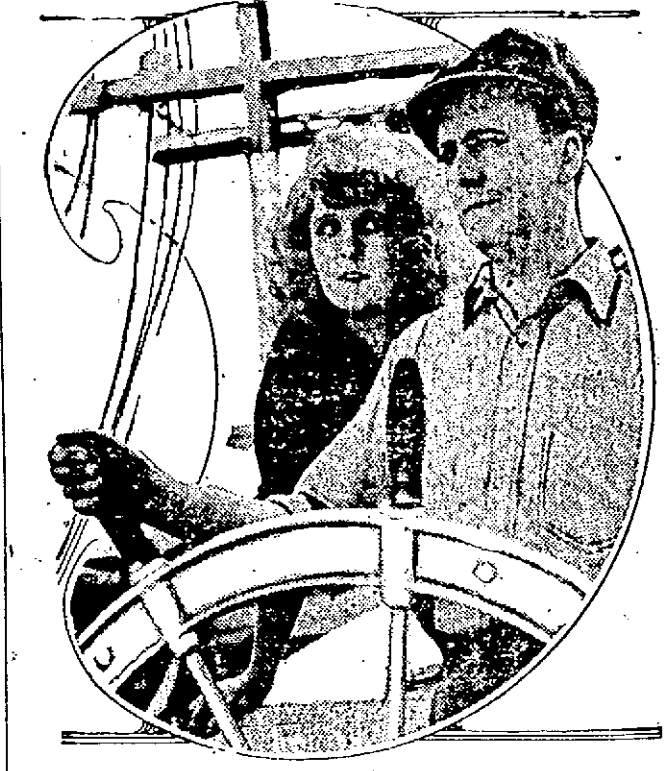

It will come out a clear, true color that will survive many washings.

At all drug and department stores—and five and ten cent stores.

MADE IN U. S. A.

Maxim, Who Took Noise Out of Bullets, Puts Pep Into Films

PEARL WHITE AND ROBERT ELLIOTT IN A SCENE FROM "A VIRGIN PARADISE." HIRAM PERCY MAXIM, INVENTOR, WROTE

BY JAMES W. DEAN
NEW YORK, Aug. 12.—Hiram Percy Maxim is the gentleman who took all the noise out of firearms by means of his well known silencer.

Hiram Percy Maxim is also the gentleman who put a lot of excitement into a few reels of celluloid when he wrote "A Virgin Paradise."

The latter is the latest photoplay to give Pearl White an opportunity to frolic with lions and monkeys. Let down her tresses and to be a woman among men, as it were.

For, be it known, Pearl engages in a rough-and-tumble, honest-to-goodness scrap with a man—and whips him!

Pearl did the job so thoroughly that many meek husbands were afraid to leave the protection of the theatre after the picture's first showing. And the wisest? They squealed in ecstatic triumph as Pearl bluffed and cuffed and womanlanded the villain.

It all started by Pearl, the daughter of a missionary, being left alone with a Bible on a South Sea island. She didn't know it, but an uncle on Long Island had died and left her a fortune.

One day while she was playing with some lions that were either too old to chew raw meat or were too well-fed

vamped Pearl rescued her from that. After Pearl had landed, quite by accident in the long island home that was rightfully hers, the villain still pursued her. That's when the big battle started.

Much furniture was broken. Many clothes were torn. Bill Farnum, Bill Hart and Wallace Beery have nothing on Pearl when it comes to fighting a man's sized battle.

After Pearl delivered a little speech about the hypocrisy of civilization, she allowed the place to burn down, found the man she loved and married him and lived happily ever after.

And that's all, except that the man Pearl fell in love with was Robert Elliott and he looks just like Bill Farnum the next.

ADMISSIONS TO "STAGE PICTURES" ARE REDUCED

Movies crowded many stage plays from the legitimate theatres last year. Its total for the year was \$4,225,726. Prices in some cities ranged from \$2 to \$5. Announcement has also been made that "A Connecticut Yankee at King Arthur's Court" and "Over the Hill" will be generally released through movie theatres at popular prices.

IN THE WAKE OF STARS
Bill Farnum has bought an airplane. Shirley Mason has completed "Queen of the Desert" and "The Sign of the Cross" plays opposite Tom Mix in "Trailin'".

Earl Ross Clark is to play opposite Pearl Williams in "Lucky Carson". Evelyn Greely is to play a leading role in the screen version of "The Stern".

John Emerson and Anita Loos have the right idea about summer work. They are editing and titling "Good for Nothing" in the comfort of their country place at Hayside, Long Island.

Auto Thefts Have Doubled in New York

NEW YORK, Aug. 15.—Automobile thefts in New York have almost doubled in the last six months, according to police figures for the boroughs of Manhattan and the Bronx, made public today. Since February 202,491 cars valued at \$2,500,000 have been stolen. Officials of automobile insurance companies report a marked decrease in the anxiety of insured owners to get stolen cars back. Many owners have refused to identify machines that the police recovered, it was asserted, preferring to collect for the loss at war time insurance valuations.

You Need More Than A Laxative

To correct constipation, all organs of digestion and elimination should be helped. Try NR and see how much better you feel.

NR Today—Keeps the Doctor Away

To live and be healthy, your body mechanism must be kept in good condition. Extract all the nourishment from food and promptly throw off the waste that is left. This is accomplished by the processes of digestion, assimilation and elimination—the work of the stomach, liver, kidneys and bowels. The failure of any of the vital organs to do its work properly affects the action of all the others. A forced bowel movement does not help constipation; it only relieves for a few hours the condition that constipation brings about.

genuine, lasting benefit; to improve your digestion and assimilation, give you a good hearty appetite, regulate your liver and bowels, tone up kidney action and give your poison-clogged body a good clearing out. Nature's Remedy (NR Tablets) is not harsh; it is mild, easy, pleasant in action; no gripping or pain ever follows its use; but it is thorough and sure. By its action on the digestive organs it promotes assimilation, which means extraction of full nourishment from your food, and thereby gives you new strength, energy, better blood, better appetite. By toning, not stirring, your lazy liver, NR sends bile into the intestines, improving intestinal digestion. Lastly, by gently encouraging more vigorous bowel and kidney action, NR drives poisonous impurities out of and cleans up your body.

Stop dosing yourself with such things that long enough to give Nature's Remedy (NR Tablets) a trial, and let the results show the difference. NR Tablets are not mere bowel movers, their purpose is to correct the condition that induces constipation and give you real

Try Nature's Remedy (NR Tablets) in every way. Get a 25c box today and take one each night for a week. You'll say you never felt better in your life. NR is sold, guaranteed and recommended by your druggist.

Indians' Hunker for Old Forbidden Dances Gives Uncle Sam Worry; Tightens Ban

BY JACK JUNGMEYER
N.H.A. Staff Correspondent

SAN FRANCISCO, Aug. 15.—Wrinkled Indian backs, disgusted with the toddling of their effete sons, yearn for the good old days when a dance was a dance and blood leaped to the throbbing drums.

The "Kiss Dance," now, and the "Ceremony of the Virgins," the "Mothers of Brave Sons" and the "Snake Fiesta"—there was something to stir a man! But a camel-walking folk have placed these under the ban. Ugh!

With the season for Indian coronation at hand, from the Snake to the Rio Grande, this quenchless hanker of tribal elders for the ancient, forbidden festivals is giving Uncle Sam some concern. The barbaric dance is viewed as the greatest drawback to final self-sufficiency of the government's red wards. Nearly the restrictions are being extended. But there is, now and again, some backsliding.

Aboriginal Fashions

The raw-hide drum, elder brother of the jazz-horn, does queer things to an Indian's heart. Before the government applied the silence, it made him give away his blanket, his horse and on occasions even his wife. It numbed him to self-torture and stirred him to boastful extravagance. And always it begot distaste for work and the white man's way of salvation.

All this, comprehended by the older reservation agents, is suggested in circulars of the U. S. bureau of Indian affairs for the guidance of the newer agents.

"Reports on Indian dancing," writes Commissioner Charles H. Burke of Indian affairs, "reveal encouraging conditions. On a number of reservations,

however, the native dance still has enough evil tendencies to furnish regarding influence and at times troublesome situations.

Savage Tribal Rites
"Dancing" per se is not condemned. But celebrations involving elements of savagery and demoralizing practices must be eradicated by education, if possible, or by punitive measures when necessary.

Together with thousands of this generation of good, bad and indifferent toddlers, I have yearned to witness the dances in which the original American dramatized his emotions and fed his mystic spirit. But the guardians of the Red Man have said it cannot be. Our grandsons perhaps, will see them translated into folk dances.

Ballroom Dancing

"Indian dancing as such was not immoral or immodest in any degree comparable to the tolerated practices in many of our ball rooms today," Major James McLaughlin recently told me in describing them. Major McLaughlin is special inspector with the Indian Bureau and for many years presided over the Rosebud Reservation in Montana.

"It was the tendency they exerted in holding tribes to their barbaric state, and the temporary environment they created, that prompted their abolition."

The plow has succeeded the bow-wow, and the number of back-sliding patriarchs who will rise to an occasional rebellious drum dwindles.

Yet—there are some old feet that like to thump the prairie ground while young feet jiggle strange gyrations on polished floors.

10,000 Visitors at Camp Devens

CAMP DEVENS, Aug. 15.—The cantonment here yesterday was the scene of more activity than has been witnessed for about two years. Despite the unsettled weather conditions more than 2000 automobiles and 10,000 citizens entered the camp from early yesterday morning until well into the evening. Many of these people were visiting the boys at the Citizens' Military Training Camp, as well as the Vermont National Guard. Colonel P. C. Booles, the executive officer in charge of the Citizens' Military Training Camp, under General Mark L. Hersey, camp commander, gave out encouraging word regarding the progress of the 1200 New England boys at the camp this month. Colonel Booles declares that the boys thrive on the training and are consequently getting three months' training in one month.

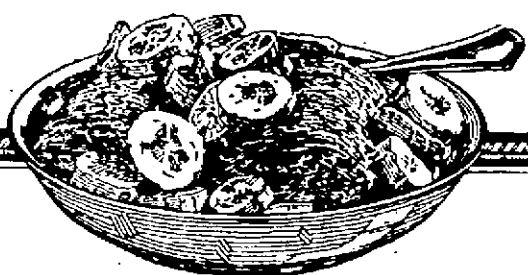

Watch Your Weight

Eating more starchy foods than you need burdens the body with a lot of "excess baggage". Keep the body strong and supple and the brain clear and active by eating

Shredded Wheat

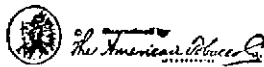

the perfectly balanced food that supplies in proper proportion the elements needed for building the perfect human body. Eat it toasted with butter, chewing the shreds until thoroughly insalivated—a builder of muscle, bone and brain.

TRISCUIT is the Shredded Wheat cracker. A crisp, whole wheat toast eaten with butter or soft cheese.

Cigarette

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

NORTHFIELD CLUB ATTENDS INSTITUTE

The Northfield club of 1921 left this morning at 8:30 o'clock to attend the 15th annual institute of the Massachusetts Christian Endeavor union which is to be held all this week at Northfield, Mass. The local club consists of 26 members of the Lowell Christian Endeavor union and the officers are Miss Carrie Stewart, president, and Miss Elsie Perron, secretary.

The institute is intended to train young people for the work of leaders in the Christian Endeavor societies of the state. Lowell will play a prominent part in the affair this year. On "saint night" Lowell young folks will present of their share of the program. "The Happy Family." A camera staff has been organized this year under the general direction of Miss Muriel Amador.

The personnel of the club is as follows:

Miss Carrie Stewart, Miss Elsie Perron, Osmond E. Coburn, president of the Lowell union; A. Edwin Wells, president of Middlesex union; F. J. Spooner, president of the Lowell Alumni; Rev. John Singleton, counselor; Miss Myrtle Buge, Mrs. F. J. Spooner, Eleanor MacDonald, Marion Morrison, Clara Chapman, Alta Linscott, Alexander Ross, Esther Blackie, Ruth Nell, Mrs. Gladys Catherwood, Muriel Amador, Alfred Fletcher, Irene Grimes, Helen Varnum, Frances Graves, Mildred Rugg, Mabelie Beardon, Mabelle Kenyon, Alice Dowry, Evelyn Herson, Nathaniel Trull, Mrs. Nellie Rawson, Jessie Ross, Ruth Leach, Violet Slack, Ruth Ritcher, Walter Matthews, Mary Varnum, Bailey Trull, Olive Grimes.

LOWELL MAN GETS GOOD APPOINTMENT

Louis Bennett, a former well known vocal teacher of this city, who some time ago left Lowell to accept a responsible position as an instructor in the Acadia Seminary Conservatory of Music and Fine Arts, Wolfville, Nova Scotia, has just been offered the professorship of voice and directorship of the annual festival of Converse

RESINOL

Soothing and Healing

CONGRESSMAN KELLER

1910 when his election to the Minnesota state assembly took him from his retail grocery store here.

When the commission form of city government was adopted in St. Paul, Keller was named commissioner of public utilities. Then the fighting started.

Always Fighter

His entire term of office was a bitter battle with the utility corporations.

Attacking the local street railway company, he charged it repeatedly with giving poor service. He blocked every move of the company for higher rates, holding it relentlessly to the terms of its franchise.

While the street car fight was at its height, Keller promised that the city buy and operate the lines.

"What's the use of paying traction stockholders seven per cent interest," he demanded, "when money to buy the company can be borrowed at four and one-half per cent?"

The cars, Keller said, could be operated at 5-cent fare with a yearly profit of \$2,000,000 to the taxpayers.

Unions Back Him

Keller's championship of labor brought the unions solidly into his fight on the traction magnates. In 1917 he was arrested on a charge of inciting riot, following an address he delivered before striking street car employees.

He was indicted but the indictment was dismissed before he was brought to trial.

Other features that characterized Keller's meteoric career here were:

1. He made St. Paul labor unions a political power. He endorsed the candidacy of his successor to the city council and labor elected him.

2. He was the father of a plan to build a municipal dock and levee here to stimulate river traffic. That plan now is being worked out.

3. He led a fight for better St. Paul schools. He hoisted greater city appropriations for schools.

Keller is a square-built, heavy-set man. Aggressiveness is written in every line of his face and figure.

HIBERNIANS' OUTING AT REVERE BEACH

More than 600 people attended the annual outing of the Lowell Hibernians which was held yesterday at Revere beach. Early in the forenoon the party left this city in 22 auto trucks and went direct to the beach where a very enjoyable program was carried out during the day. The Irish Volunteer drum corps furnished the music for the outing. The party returned to this city at a late hour last evening tired but happy in the remembrance of a day well spent.

BRIGHTEN THEM

If your gilt picture frames are dull pour a few drops of ammonia on a piece of bread and rub it over them. Then be sure to burn the bread up to prevent its being eaten by children or animals.

REMOVE GLUE

The white of an egg will remove glue or the paste of fly paper from material. Rub the white over the soiled spot and it will roll up.

Broke Neck Chasing His Wife

BOSTON, Aug. 15.—While chasing his wife out of the house with a carving knife in his hand yesterday afternoon Michael Clifford, 45 years old, of 212 Salem street, Woburn, slipped on the top step outside his front door, missed his footing and fell to the ground. His neck was broken and he died instantly. His wife said he was under the influence of liquor and had run at her with the evident intention of stabbing her with the knife.

shaw, John Johnson, Harry Green, Fred Hallinger, Robert Moore and James Lacey.

EXAM FOR POSTMASTER

Inasmuch as the appointment of John H. Valentine as postmaster for North Chelmsford was never confirmed by the senate, a competitive examination for the position will be held Sept. 12. This will be the third examination for that position within a year. When the first examination was held the man who headed the list of eligibles refused the position. Then another examination was held with the result that Mr. Valentine was high man. He was given a recess appointment by President Wilson, but the senate failed to confirm the appointment. It is not known if Mr. Valentine will take the coming examination as he is ill at Nantasket beach.

CORN HUSKS

If you are lucky enough to be living where nice clean corn husks in quantities are available, save them, dry them in the sun, make a tick and put them in it to serve as a mattress for your small son's or daughter's bed. The freshness is desirable.

OVERSEER HONORED
Mr. O. G. Fish, who for the last 15 years has been overseer of the spinning department of the Appleton mills, resigned his position Saturday, August 13. At closing down time he was called from his office by his former employer and presented a substantial purse of gold. Mr. Fish was (the much surprised and after getting over the effects of the surprise) he delivered a short speech of acceptance after which general hand shaking and wishes of a long life and good health were on tap. Mr. Fish will, for the present, enjoy a much needed rest, which will take him to the White mountains and Maine.

CLEAN FURNITURE
Mix equal parts of linseed oil, turpentine and vinegar to clean your furniture. It cleans and has something the effect of a polish.

London Admits Irish Situation of "Critical Gravity"

Plebiscite in Ireland Suggested

DUBLIN, Aug. 15.—(By the Associated Press).—The people of Ireland, who have enjoyed a month of peace, found it hard today to believe that negotiations between Eamon de Valera and Prime Minister Lloyd George were at the breaking point. Suggestion has been made that the Dail Eireann, which meets tomorrow, may propose submission of the question to a plebiscite, but this proposal may not come from those wishing to prolong the truce as long as possible.

Chance for Big Man to Save Ireland

BELEFAST, Aug. 15.—Commenting on the new developments in the Irish situation, the Unionist Belfast Telegraph says: "What a tragedy for Irish nationalism that there is not to be in its rank one man of the quality, character, bigness and statesmanship to stand forth upon the stage and rally round him all the thousands who are yearning for such a peace as is now offered and are turning weeping eyes and longing hearts everywhere for some strong man to lead them out of the Gethsemane which the gun men have made of Ireland. "England has been magnanimous to the point of folly, and Ireland insane to the point of criminality. For Ireland, separation would be suicide."

Dail Eireann Has Chance to Save Ireland

DUBLIN, Aug. 15.—The Irish Times says: "The Dail Eireann tomorrow will have a unique opportunity of healing Ireland's many wounds and of assuring for the Irish people a great and glorious future. We hope and pray they will follow General Smuts' safe advice." The Cork Examiner says: "The way to settlement would perhaps be much easier if Ulster were a little more yielding, but we have got to face the fact that Sir James Craig's Ulster wants to stand by the home rule act."

Call Meeting of Ulster Cabinet

BELEFAST, Aug. 15.—Little surprise was felt here at the tenor of the letter from Eamon de Valera to Prime Minister Lloyd George, rejecting the government's offer of dominion status for Ireland, as talk of peace has been regarded with much skepticism. It is pointed out that should the truce in southern Ireland be ended, the government's difficulties would be enormously increased through having recognized the Sinn Fein as belligerents. A meeting of the Ulster cabinet has been called, although Ulster is only indirectly interested. Sir James Craig, the premier, is grouse shooting in Scotland.

Argentine Favors Irish Independence

BUENOS AIRES, Aug. 15.—Laurencia Ginnell, who recently arrived here as "envoy of the Irish Republic" has cabled Eamon de Valera that "Argentina is practically unanimous for Irish independence" and will support any decision. High mass for Ireland was held at the Passionist church, a large congregation being present. The despatch added that Mr. Ginnell had attended on Friday upon invitation the celebration of a Te Deum in the Cathedral on the anniversary of the capitulation of British troops on August 12, 1866. President Yrigoyen and other government officials were present. Ginnell has not as yet been received by Foreign Minister Pueyrredon.

U. S. Plan for Control of China

TOKIO, Aug. 15.—(By the Associated Press).—Reports from America that the United States may suggest control of China by an international commission are understood to have been conceded at the meeting of the Japanese cabinet yesterday. Japan is studying the advisability of proposing an international council for the guidance and development of China, says the Kokumin Shinbun. The work of the council would be based upon the idea of the powers' abandonment of spheres of influence and allotting remedies, including extra territoriality, which are inimical to China's complete sovereignty. The unification of north and south China also would be sought, the newspaper asserts.

\$95,000 Taken in Payroll Robbery

SPRINGFIELD, Ill., Aug. 15.—A. E. Traeger, auditor of the Peabody Coal Co., said last night that \$95,000 was the sum secured in the payroll robbery at Kincaid Saturday when four bandits attacked Jerome Lockhart, deputy sheriff, and F. M. Jones, bank cashier, on the Main street of Kincaid, knocking them down and fleeing with the money before a number of witnesses could interfere.

Mrs. Harriet Prescott Shepard Dead

NEWBURYPORT, Aug. 15.—Mrs. Harriet Prescott Shepard, novelist and poet, died at her home on Deer Island early today. She was born in Calais, Maine, in 1835.

Wife of Natick Clergyman Drowned

MIDDLEBORO, Mass., Aug. 15.—Mrs. Orville E. Crane, wife of a Natick clergyman, was drowned in Lake Assawamsett late last night, when a small sail boat was capsized in a squall. William Munroe and Miss Marion Bayer of Natick, week-end guests at the Crane cottage, who were being taken across the lake to the car line by Mr. Crane, were thrown into the water, but were rescued by a cottager who put out in a motor boat.

DE VALERA'S REFUSAL OF LLOYD GEORGE'S OFFER

LONDON, Aug. 15.—(By A. P.).—On Aug. 10 Eamon de Valera addressed the following communication to Mr. Lloyd George: "Sir: On the occasion of our last interview, I gave it as my judgment that the Dail Eireann could not, and the Irish people would not accept the proposals of your government set forth in draft July 20. Having consulted my colleagues, and with them given these proposals most earnest consideration, I now confirm that judgment. "The outline given in the draft is self-contradictory and the principle of the pact not easy to determine. To the extent that it implies recognition of Ireland's separate nationhood and her right to self-determination, we appreciate and accept it. "But in the stipulations and express conditions concerning vital matters the principle is strangely set aside and a claim advanced by your government to any interference in our affairs and to a control which we cannot admit. "Ireland's right to choose for herself the path she shall take to realize her own destiny must be accepted as indefeasible. It is a right that has been maintained through centuries of oppression at the cost of unparalleled sacrifices and untold suffering. "We cannot propose to abdicate or imply it, nor can Great Britain or any other foreign state or group of states claim to interfere with its exercise in order to serve their own special interests. "Declaring that it is Ireland's desire to be free of imperialistic entanglements which will prove destructive of Irish life and be fruitful only of ruinous wars and crushing taxation, Mr. De Valera says: "Like the small states of Europe, the Irish people are prepared to hazard their independence on the basis of moral right, confident that as they would threaten no nation or people they would in turn be free from aggression themselves. "Ascertaining that this policy is the policy that Irishmen have declared for in plebiscite after plebiscite, Mr. De Valera continues: "As for myself and my colleagues, our deep conviction is that true friendship with England, which military and aerial has frustrated for centuries, can be obtained only by a ready and unflinching acceptance of absolute separation. "The fear, which we believe groundless, that Irish territory may be used as the basis for attacks upon England's liberties, can be met by reasonable guarantees not inconsistent with Irish sovereignty. Valera declares that a dominion status for Ireland is illusory. He says the freedom the British dominions enjoy is less the result of legal enactments or treaties than of the immense distances which separate them from Great Britain and make interference by Great Britain impracticable. "The most explicit guarantees, including the dominion's acknowledged right to secede," Mr. De Valera continues "would be necessary to secure for Ireland an equal degree of freedom. There is no suggestion, however, in the proposals of any such guarantee. "Instead, the natural position is reversed. Our geographical situation with respect to Great Britain is made the basis of denials and restrictions unheard of in the case of dominions. The smaller island must give military safeguard and guarantees to the larger and suffer itself to be reduced to a position of helpless dependency. "Obviously we are unable to urge acceptance of such proposals upon our people. A certain treaty of free association with the British commonwealth group, as with a partial league of nations, we would have been ready to recommend, and as a government, to negotiate and take responsibility for, had we not been ready to do the nation as a whole into such an association would secure for it the allegiance of the present dissenting minority. To meet those sentiments alone this step could be contemplated. "Treaties dealing with proposals for free interlude and mutual limitations of armaments are ready to any time to negotiate. Also mutual agreements concerning air railway and other communications, and generally for the smooth intercourse essential to both nations. "But all such treaties and agreements would require submission for ratification, first to the national legislatures, and afterward to the Irish people, in a manner showing that their decision was a free decision and without any element of military compulsion. "Mr. De Valera offers to leave the question of Ireland's share of the national debt to arbitrators, one each to be appointed by Ireland and Great Britain and the third chosen by neutral, or nominated by the President of the United States. He declares that the question between the political minority and the great majority of the Irish people must be left for the Irish people themselves to settle. "We cannot admit the right of the British government to mutilate our country, either in its own interest or at the call of any section of our population," the letter continues. "We do not contemplate employment of force. If your government stands aside we can effect complete reconciliation. We agree with you that no common action can be secured by force. Our regret is that this wise and true principle which your government prescribes for us for the settlement of our local problems it seems unwilling to apply consistently to the fundamental problem of the relations between our island and yours. "The principle we rely on in one case we are ready to apply in the other; but should this principle not yield to immediate settlement, we are willing that this question, too, should be submitted to external arbitration. "Must Be Freed From Aggression "Thus we are ready to meet you in all that is reasonable and just. The responsibility for initiating and effecting an honorable peace rests primarily not with our government but with yours. We have no condition to impose, no claims to advance, but the one that we be freed from aggression. "We reciprocate with a sincerity to be measured only by the terrible sufferings our people have undergone, the desire you express for a mutual and lasting friendship. The sole cause of the ancient feuds you deplore has been, as history proves, the attacks of the English rulers upon Irish liberties. These attacks cease forthwith if your government has the will. "The road to peace and understanding lies open."

England Faces Crucial Period

prime minister sought to lay the Irish problem before the country on the eve of the meeting of the Dail Eireann. Government Terms The government terms in brief were as follows: Dominion status for Ireland, with complete autonomy in financial matters but without tariff or trade restrictions between the islands. Ireland would maintain defense forces and police, but her territorial forces would be kept within "reasonable limits." Ireland would maintain her own postal system, but would grant England air defense and a communication facility. Ireland would have control of her own educational and industrial affairs, but the British navy would maintain its hold on the seas around the island. A share of the United Kingdom's debt would be assumed by Ireland, the exact amount to be fixed by arbitration. De Valera for Independence Mr. De Valera in reply, demanded full independence for Ireland, and suggested a treaty of association with the British commonwealth group. Treaties regarding trade and limitation of armaments were urged by the Irish republican chieftain, together with mutual agreements as to air, railway and other communications. "The Ulster problem will be left to the Irish themselves for solution, Mr. De Valera declared that the "employment of force was not contemplated."

Attitude of Ulster

The attitude of the Ulster government was made plain by the making public of a letter to Mr. Lloyd George from Sir James Craig, the Ulster premier. Sir James expressed the loyalty of his government to the empire, and reiterated his readiness to confer with Mr. Lloyd George and the Sinn Fein as to some means of settling the Irish controversy, but declared he would not support the Sinn Fein in what he described as a "move to coerce the government to repudiate the Irish act" and "to press for wider powers." Sir James said he would not interfere in any negotiations between the Irish government and the British government, but would stand ready to co-operate on equal terms with southern Ireland in carrying out any agreement reached.

London Papers' Views

Most of London's newspapers rejected the belief that the government's proposals offered a generous settlement of the controversy. "The Daily Express declared its belief that Mr. De Valera was having trouble with the extremists of his party, and ventured to predict that his reply was not the last word from Dublin. It also asserted that Premier Lloyd George's "generous proposals" would have a favorable effect upon the great body of the Irish people. The newspaper thought that changes in detail might still be possible, but agreed with other newspapers that the government's proposals must be England's last word, adding they ought to satisfy every reasonable aspiration of the Irish race. "The Daily Mail said Premier Lloyd George would have the sympathy of his country behind him in the attitude he had taken."

Government Denounced

The Daily Herald, representing the socialist labor view, declared the British offer was "essentially short of the just and logical Irish demand, and created a deadlock which causes us to look to the future with anxiety and dread. "This newspaper will stand by the Irish whosoever decision they reach, but it hopes the Dail Eireann, in order to save lives and bring peace, will be able to accept something less than Ireland's due." The Morning Post denounced the government for "having deliberately placed this country in the position of a defeated nation by suing for terms." "All of Ireland's best friends," said the Manchester Guardian, "and all who regard with passionate shame the wrongs she has suffered will hope and pray she will not close the door of peace."

Cannot Go Further

The Yorkshire Post declared that the government had already gone far in even undertaking negotiations under existing conditions, adding that "what ever the consequences may be, it will not and cannot go further." The Scotsman of Edinburgh said "peace is not in the distant future, and if the Sinn Fein has broken its last word, the revolution of tomorrow in this country will be instantly overwhelmed." The Glasgow Herald said the government had made an offer of "unparalleled liberality and magnanimity," and that the continuance of negotiations was not precluded because the Sinn Fein has to reckon with the reason of Ireland and the sentiment of the civilized world."

LLOYD GEORGE'S REPLY TO DE VALERA

LONDON, Aug. 15.—(By the Associated Press).—Mr. Lloyd George's reply to President de Valera, which was dated August 13, follows: "The earlier part of your letter is so much opposed to our fundamental position that we feel bound to leave you in no doubt of our meaning. "You state that after consulting your colleagues you confirm your declaration that our proposals are such as the Dail Eireann could not and the Irish people would not accept. You add that the outline given by our draft is self-contradictory and that the principle of the pact offered you is not easy to determine. We desire, therefore, to make our position absolutely clear. "In our opinion, nothing is to be gained by prolonging the theoretical discussion of the national status which you may be willing to accept as compared with that of the great self-governing dominions of the British commonwealth, but we must direct your attention to one point on which you lay some emphasis and on which no British government can compromise, namely, the claim that we should acknowledge the right of Ireland to secede from her allegiance to the king. "Destinies Indissolubly Linked "No such right can ever be acknowledged by us. The geographical proximity of Ireland to the British Isles is a fundamental fact. The history of the two islands for many centuries, however it is read, is sufficient proof that their destinies are indissolubly linked. "Ireland has sent members to the British parliament for more than 100 years. Many of her people during all that time have enlisted freely and served gallantly in the forces of the crown. Great numbers in all the Irish provinces are profoundly attached to the throne. "These facts permit of one answer, and one only, to the claim that Great Britain should negotiate with Ireland as a separate and foreign power. "When you, as the chosen representative of Irish national ideals, came to speak with me, I made one condition only, of which our proposal plainly stated the effect—that Ireland should recognize the force of geographical and historical facts. "It is those facts which govern the problems of British-Irish relations. If they did not exist, there would be no problems to discuss. I pass, therefore, to the conditions which are imposed by these facts. "No Arbitration by Foreign Power "We set them out clearly in six clauses in our formal proposal, and need not restate them here, except to say the British government cannot consent to the reference of any such questions which concern Great Britain and Ireland alone to the arbitration of a foreign power. "We are profoundly glad to have your agreement that northern Ireland cannot be coerced. This point is of great importance, because the resolve of our people to resist with full power any attempt at secession by one part of Ireland carries with it of necessity an equal resolve to resist any effort to coerce another part of Ireland to abandon its allegiance to the crown. "We gladly give you the assurance that we will concur in any settlement which Southern and Northern Ireland may make for Irish unity within the six conditions already laid down, which apply to Southern and Northern Ireland alike. But we cannot agree to refer the question of your relations with Northern Ireland to foreign arbitration. "The conditions of the proposed settlement do not arise from any desire to force our will upon the people of another race, but from facts which are as vital to Ireland's welfare as to our own. They contain no derogation from Ireland's status as a dominion; no desire for British ascendancy over Ireland, and no impairment of Ireland's national ideals. "Our proposals present to the Irish people an opportunity such as has never dawned in their history before. We have made them in a sincere desire to achieve peace, but beyond them we cannot go. "We trust you will be able to accept them in principle. I shall discuss their application in detail whenever your acceptance in principle is communicated to me."

PLAN FIELD DAY

A field day under the auspices of the Ring Spinner Fitters' union will be held on the Alken street grounds in West Centralville Labor day. The affair will be free to the public and numerous sporting events will be held, suitable prizes to be awarded the winners. The field day will be staged in an endeavor to promote sporting interests in this city and it is expected a large attendance will witness the numerous events that will be carried on. A feature of the program will be a baseball game between the married and unmarried men of the union. The committee on arrangements consists of Albert Couture, chairman; Henry Fortier, David Leclair and Theodore Holmes.

PROVIDENCE, Aug. 15.—George F. Field, inspector in the United States customs department for 10 years and previously assistant observer at the United States weather bureau here, fell from the window of his second story room at 2 Charles Field ct. some time Saturday night, and was killed. He suffered a fractured skull and death is believed to have been instantaneous. The body was discovered at 2:40 o'clock yesterday morning by John McAllister, a milkman.

COUNCIL MEETING

There will be a special meeting of the municipal council at 11 o'clock Wednesday morning. Among the matters which may come up for discussion is the letter of John Kearney, requesting the council to rescind its action of last week when it voted to rename Merrimack square Paul T. Kearney square in honor of the Lowell man of that name who gave up his life in France. It is probable that the council will vote to rescind its previous action.

Novelty night at Ocean Echo dance hall, Salisbury beach.

SAVED SIGHT OF HUNDREDS

Dr. Mary T. Sirov recently returned to Washington, D. C., from the Balkans where in 15 months she restored the sight of 1700 Serbians. She was the only eye specialist there and natives believed her to be endowed with supernatural gifts. Here she is with Boris, who calls her "mother." He is the son of a Serbian general killed in war.

NORTHCLIFFE REVIVES THE POLKA-DOT!

BY MARIAN HALE
NEW YORK, Aug. 13.—"What is a polka-dot and why is a polka-dot?" queries Lord Northcliffe, the British publisher. And the fashion opportunists are right on the dot to tell him. If you walk up the New York streets past the gown shops you think at first your eyes are affected, with these black spots dancing before them. It's whispered that haberdashers are going to get out a new polka dot tie called "The Northcliffe." Why? Well, just because someone admired Lord Northcliffe's polka-dot tie and told him so. Northcliffe said he had never heard of "polka dots," and would like to have the term explained. That was enough for the fashion people! Style opportunists flourished years ago just as they do today. For years ago when the Bohemian peasant dance called the polka was the rage in the old world as well as the new, President Polk was president of the United States. An enterprising manufacturer got out a new style of silk, a fabric with contrasting dots upon it. Immediately the new fabric, worn by the fashionables who were dancing the polka became known as the polka-dot. Polka-dotted materials have been much in vogue this summer but they are better than ever now, thanks to Northcliffe's interest in them! In polka, georgette, silk and satin the polka dot is very smart for afternoon as well as street dress. Dark blue, black and brown with white dot are the most popular combinations though light backgrounds with dark dots are also good.

CARUSO'S FAVORITE PHOTO OF GLORIA

This is the picture of little Gloria Caruso, that her father liked best. It was taken shortly before Caruso and his family sailed to Italy, where the great tenor died. Little Gloria is expected to receive a large share of the Caruso fortune.

DENBY'S PRIVATE "NAVY"

Secretary of the Navy Denby can't get away from naval matters even on his vacation. Witness him in his private "battleship" on Lake Oakland. That body of water adjoins his farm at Clintonville, Mich., and the secretary is battling the underwater denizens with hook, line and sinker.

CHARMING U. S. PAPER HATS COST \$2 EACH

BY MARIAN HALE

NEW YORK, Aug. 12.—Even the high cost of paper can't make a paper hat very expensive.

If you have never seen a paper hat as developed in the latest styles be prepared to find it looking very much like a late Paris import.

New York is showing a lot of these paper hats. They were developed in Germany during the war.

Germany, under pressure of war necessity, evolved practical paper clothing and paper shoes, as well as hats.

Now the American manufacturer is giving a more esthetic touch to the practical paper hat.

Germany is also manufacturing for the trade thousands of paper hats.

These shown here were made in Chicago and cost \$2 each.

The imitation of straw and cloth designs defies detection.

All weaves and shapes are fashioned. There is the smart urban of finely woven braid with foliage.

There is another big garden hat, a sport hat, toques with paper feathers—anything you want.

Oh, these paper hats are very far removed from those big crepe paper sun shades of your childhood. They are the real thing.

Are you real sure your straw isn't paper?

1,000,000 Attended Pageant of Progress

CHICAGO, Aug. 15.—More than one million persons attended the Pageant of Progress industrial exhibits which closed last night, it is announced. Exhibitors reported a large volume of business during the 16 days of the exposition, one firm alone taking \$225,000 worth of orders. It is expected that the pageant will be made an annual affair.

INTERESTING PICTURES IN PHOTO CONTEST

William A. Meade of North Billerica has sent in a group of pictures to the Chamber of Commerce which are among the most interesting photos entered in the chamber's photography contest. The pictures are in the industrial class and are views of the Saco-Lowell shops. They cover conditions both inside and outside the plant and are very interesting to the general public as pictorial exposition of one of Lowell's largest industries.

Many other photos have already been entered in the contest which is scheduled to run without interruption from now until October 1. With Assistant Secretary Edward W. Gallagher of the chamber returned from his vacation, the contest has taken on a new lease of life and will boom along until closing time. Pictures of any feature of Lowell will be acceptable and valuable prizes will be given to those who send in the best views. Mr. Gallagher issued a statement this morning upon the photographic field in Lowell as follows:

"Lowell is a veritable treasure box for good pictures. It is a city which is full of interest. Our city may have its dull and dark corners, but it is well off, if not better than a great many New England cities."

"What parks we have are kept in good condition and Fort Hill park is one of the best natural parks in the city. Shedd park for instance, a gift to the city by Freeman Ballard Shedd. Though not entirely developed, Shedd Park will rival even Fort Hill park in beauty when completed. At present it has a very original and pretty entrance, flanked on either side by bits of greenery and neatly graded ground. To us apparently it means

nothing, yet to the stranger it is even better than any park in his own city. Then there is Tyler park, well known also for its naturalness; Varnum park, set aside particularly as a beauty spot in a congested district and consecrated to the memories of soldiers and sailors of Centralville who gave up their lives in war."

"Furthermore, besides having an outward semblance of beauty, nearly all our parks and public centers have memorable, historical, charitable, or patriotic sentiment attached to them, which adds to their characteristics as Lowell institutions."

"Monument square, with its pretty monuments, erected also through patriotic fervor, and its massive and towering background formed by city hall is another beauty spot."

"Thus, one may go on describing various places in the city, by which thousands of people pass daily, but never think of their attractiveness."

"Other cities may have civic centers, pretty parks, etc., but so has Lowell. You mention other cities because you are more observing in passing through other cities and overlook the beauties of your own city."

"DAREDEVIL GUS" PLUNGES ON ROCKS

CONCORD, N. H., Aug. 15.—A wire performer, George Oliver of Boston known as "Daredevil Gus" lost his equilibrium in sliding across the Conteeook river at an amusement park here yesterday, and plunged to the rocks below. He was taken to a hospital, where his condition is said to be serious.

TAR PAPER

If you find the opening through which mice enter your room cover it with a piece of tar paper. Mice do not like the smell of tar and will avoid it.

LOWELL MEN IN PARADE

Today Marks Anniversary of Parade of 14th Engineers in London

Four years ago today, Aug. 15, 1917, the 14th engineers, paraded in London, and it was the first American army unit to parade in London during the World war.

This unit was made up almost entirely of men in the employ of the Boston & Albany, Boston & Maine, N. Y., N. H. & M., and Maine Central railroads, who were recruited in May and June, 1917, by Col. W. P. Woolen in Boston. It mobilized at Rockingham Park, Salem, N. H., and left for France on July 27, 1917, arriving at Liverpool, England, Aug. 12, 1917. With three other American regiments it paraded in London on Aug. 15, 1917, being the first foreign troops to march under arms on English soil since the landing of William of Orange. On Aug. 21, 1917, the regiment was attached for duty to the Third army (N) of the British Expeditionary Force at Boisleux-au-wood, near Arras, Pas de Calais, France, being the first American unit in the active war zone. It also took part in the Cambrai and Somme offensives of 1917, the Somme defensive of 1918, the Aisne-Marne, Oise-Marne, and the Meuse-Argonne of 1918.

Many commendations were given the regiment by British, French and American commands for the efficient service rendered in the various operations in which it took part.

The following Lowell men were connected with the 14th Engineers:

Captain Frank C. Pelletier in command; Alden J. Harris, William H. McElroy, Thomas Baxter, Frank D. Kenney, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. A, A. J. Barcus, E. W. Bridgford, North Chelmsford; A. P. Cossetto, E. A. LeBlanc, P. J. McNulty, North Billerica; F. W. Peloguin, S. V. Scribner, Liborio E. Nadeau.

Co. B, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. C, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. D, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. E, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. F, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. G, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. H, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. I, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. J, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. Janson, Joseph Louzere, Joseph Marguire, Arthur J. Messier, Cyrillus J. Morin, Sylvio Nadeau, John W. Stocks, Joseph B. Purcell, Dick S. Kane (North Billerica), Bob Hanna (North Billerica), Jim Kennedy, Headquarters, Bob Holmes, and John Cryan.

Co. K, J. B. Clancy, J. J. Donovan, J. J. Kennedy, Maurice Foley, John D. Kennedy, Edward Chase, A. Gusselin, Roy La Rose, Joseph C. Godin, Charles A. Hutchins, Hector Jackson (Tewksbury), Carl A. HE GOT EVERYTHING IN THE DRUG STORE

At Least It Seemed He Took Every Kind of Medicine Without Relief

"After a hard year's suffering from indigestion and stomach trouble Tanlao has made men feel just like I have wanted to feel," was the statement made recently by Thomas Ratcliffe, of 10 Chelsea St., Worcester, Mass.

"I was in a terribly rundown condition when I began taking Tanlao, and had tried most everything sold in a drug store without getting any benefit. I bloated fearfully with gas after meals, and had awful attacks of palpitation of the heart. My nerves were on edge, too, and I was so restless I couldn't sleep well at night. I felt weak and worn out all the time and was in a mighty bad fix."

"My very first bottle of Tanlao helped me wonderfully, and since taking four bottles I feel like a new man. The stomach trouble and indigestion are entirely gone, I am never bothered with palpitation or bloating, eat just anything I want, and relief all my meals. I am no longer nervous either, sleep good at night, and am rid of that tired, worn-out feeling. In fact, I feel fine in every way, just as fine as I could ask to feel, and I am giving my statement for the benefit it may be to others who are in a rundown condition like I was."

Tanlao is sold in Lowell by Green's drug store under the personal direction of a special Tanlao representative; by Wright Drug Co., Billerica, Mass.; A. D. Falls, Chelmsford, Mass.; Snow's Pharmacy, Concord, Mass.; and by the leading druggist in every town.—Adv.

TO PROTECT RIGHTS IN YAP AND SHANTUNG

TOKIO, Aug. 15.—(By The Associated Press)—Former Premier Okuma in an interview published here yesterday was quoted as saying that if any of the powers should attempt to interfere with the agreements reached at Versailles concerning the island of Yap and Shantung, the Japanese should oppose such interference for the sake of the honor of the empire.

The fact must be recognized, Mr. Okuma added that Siberia is so vitally connected with South Manchuria, where Japan has invested \$50,000,000, that Japan's special position in Siberia should be accorded. Generally speaking, Mr. Okuma said, Japan's delegates to the forthcoming conference on far eastern questions must insist on the right of existence of the Japanese people and protection for the Asiatic peoples generally in furtherance of the principle of universal equality.

ELECTRIC CARS IN COLLISION

A rear end collision between two electric cars occurred this morning in Middlesex street. No one was seriously injured, but a few of the passengers were badly shaken up. The cars were damaged, but were able to continue their journey on their own power.

The collision occurred at 6.40 o'clock near the corner of Canton street. It seems that the forward car, bound for Merrimack square, stopped to take on passengers, when a car coming from the Highlands bumped its rear end. The cause of the accident is being investigated by the officials of the

SPORTING NEWS AND NEWSY SPORTS

Mlle. Lenglen Arrives

Mlle. A. Suzanne Lenglen, the sensational French tennis star, snapped as she reached New York on the S. S. Paris to compete for the women's lawn tennis championship of the United States at Forest Hills, L. I. Miss Lenglen is women's champion of Europe.

MEET THE PROUDEST "PA" IN THE WORLD

His Nine Sons Have Their Own Family Baseball Team and His Six Daughters Form a Star Basketball Squad---Grandchild Ball Team's Mascot---Regrets Not Having 11 Boys

LEFT TO RIGHT, (BACK ROW) DR. VIVIAN V. J. HAYWOOD, W. LEONARD H. HUGHES, COLONEL T. O. GILLUM AND COL. AND HARRY H. (BOTTOM ROW) O. LITTLETON (LEFT) AND WILLIAM B. AND ROY T. (CENTRAL) GRANDCHILD, THE TEAM MASCOT, CARROLL E. (RIGHT).

By Newspaper Enterprise
MADISON MILLS, Va., Aug. 15.—Colonel T. O. Gillum, pioneer merchant and miller of Madison county, has an athletic family. There are eleven children in his brood—nine boys and six girls. All the boys play ball. They call their team the Gillum Brothers nine. The girls have formed a basketball team known as the Gillum Sisters. "I'm mighty proud of my family," says Colonel Gillum. "I guess I'm about the proudest daddy in the world. "There aren't fifteen such kids anywhere."

"I didn't do much ball playing when I was a kid. I didn't have time. "I once objected to my boys playing baseball. After I saw the good it did them, I was for it and encouraged the girls to play basketball. "I'm sorry that there weren't eleven boys in my dock so we could have had a football eleven."

mer. But they are now scattered all over Virginia and the only opportunity for the team to take the field is on the occasions of family gatherings. At their annual game they renew an old baseball feud with the Plangan family nine at Powhatan, Va. There are twelve Gillum grandchildren. "I make it my business to furnish them with plenty of bats, gloves and balls," says Grandpa Gillum. "I want them all to be baseball or basketball players. There's nothing like athletics to bind a family together—and the bigger the flock the better."

INTRODUCING "MONA LISA"

She's queen of her class. She was judged the best French bull at the dog show at Long Branch, N. J. M. Rossner, of New York, owns her. He calls her "Champion Monte Carlo Mona Lisa."

MAJOR LEAGUE RECORD THIS IS SLUMP MONTH

FOR ATHLETIC STARS

No Changes of Pitchers in

Four Games Yesterday—

Record for Season

NEW YORK, Aug. 15.—A major league record for 1921 was set by the National League yesterday when there was no change of pitchers in the four games played. Of the eight pitchers Morrison of Pittsburgh pitched the best game, blanking Chicago with three hits. In the American League Jones of Boston shut out Washington with four hits, while Babe Ruth of Chicago restricted the Cleveland world's champions to five hits and one run. Home run drives decided two games. White's homer gave Pittsburgh a 1-0 victory over Chicago in a pitchers' battle between Morrison of the Pirates and Martin of the Cubs. Frisch, whose batting has been prominent in many of New York's victories recently, made a home run with two on base in the first inning netting the Giants more runs than Philadelphia made in the first game. The Braves by virtue of Boston aided the Braves in defeating Brooklyn, while two triples by Daubert of Cincinnati were responsible for St. Louis' defeat.

CARP TO RETIRE

AFTER GIBBONS BOUT

BOULOGNE, France, Aug. 15.—(By the Associated Press)—Georges Carpentier will bid farewell to the fighting ring after he defeats Tom Gibbons, the St. Paul, Minn., lightweight champion, next January. St. Louis, Mo., announced yesterday. He said that Carpentier would fight an English boxer, not yet named, in London in October or November; then he will meet a French heavyweight in Paris previous to meeting Gibbons for the light heavyweight title in Paris. Carpentier was not expected to abandon the world heavyweight championship of the world.

PIRATES' PROTEST

IS DISMISSED

NEW YORK, Aug. 15.—Dismissal of the protest of the Pittsburgh Pirates of a New York victory over the Pirates July 27 was announced today by John A. Heider, president of the National League. The game was protested on the ground that failure of Umpire Klem to call a Pittsburgh man out on an infield fly had resulted in a double-play by force-out of runners at third and second bases. Heider said that no appeal could be taken on an umpire's decision in matters of fact and judgment, and sustained Klem's ruling that the hit ball was not an infield fly. The ball had bounced over foul ground and then was blown onto fair ground where Catcher Snyder of New York, dropped it after making every effort to catch it.

TOTH TO ATTEMPT

CHANNEL SWIM

BOSTON, Aug. 15.—Another candidate for the long, hard swim across the English channel emerged from the ocean at Boston light yesterday when Charles Toth of South Boston completed the 12 miles from the Charlestown bridge in this city. His time was five hours and 37 minutes. He contended with a stiff wind and a choppy sea. The club which Toth represented had announced it would send him to England to attempt the channel swim. Sam Richards, claimant of long-distance honors several years ago, was forced by strong currents to abandon the swim. He was loading Toth at the time of his withdrawal. Toth used an aquatic trudeon stroke, averaging 24 to the minute.

AMATEUR BASEBALL

The Dracut All Stars were defeated by the Wille Streets Saturday by the score of 11-12.

The Vermont A.C. accept the challenge of the Nationals for a \$5 purse August 15, on the Vermont grounds. The Vermont A.C. is looking for games with any 13-15 year old team in the city.

The North End defeated the Crescent A.C. Saturday by the score of 8 to 6 and also played the Emeralds on the South common but the game was called off on account of rain with the score 1 to 1. Would like to play the Emeralds any night of this week. See Manager Gloreau, at 110 Salem street any evening between 8 and 7.

BIG TENNIS TOURNEY

THROUGH WITH HALF-SERIES OF ROBBERIES AT

MAINE RESORTS

Great Interest in Playing of

Suzanne Lenglen, French

Champion

FOREST HILLS, N. Y., August 15.—Tennis fans were here in force today for the opening of the Women's National Lawn Tennis Championship tournament, interest in which has been heightened by the entry of Suzanne Lenglen, French champion, who is rated by many experts as the best woman player the game ever produced. Miss Lenglen was scheduled to meet Miss Eleanor Goss of New York in the opening round this afternoon, but the match was postponed until tomorrow at Miss Lenglen's request, so that she could have time to round into form after her sea voyage. The French star had one brief work-out on the West Side club courts shortly after her arrival Saturday. Her plans for practice yesterday, however, were blocked by rain.

Featured matches on today's program followed: 2 p. m.—Mrs. May Sutton Bundy of San Francisco vs. Mrs. Helen Homan McLean of New York. Miss Marie Wagner of New York vs. Miss Leslie Bancroft of West Newton, Mass. Mrs. Benjamin E. Cole of North Andover, Mass., vs. Miss Clare Cassel of New York.

2:15 p. m.—Mrs. Molla Burslett Malory of New York (present title holder) vs. Mrs. Marion Zinderstein Jessup of Wilmington, Del. Miss Jessie M. Galt of Brooklyn vs. Mrs. Cyrella Clark of New York.

C. M. A. C. DEFEATS

HAVERHILL TEAM

C. M. A. C. defeated the fast P. & Q. team of Haverhill Saturday afternoon, 3 to 1. It was a fast game considered from any angle and the large crowd that assembled on the Texello school campus to see the contest was away well satisfied at the end of the game. Buckley led the field in batting with a total of three base hits out of four chances, while Pate was the star in the field. Hobson pitched for the C. M. A. C. and Ryan did the honors for the visitors. The two men were very evenly matched and it was probably because of the support which Hobson received that his team nosed out the other.

While both the peasant races are still leaving us in doubt. We hear the whistles calling all the gridiron players out.

JOHNNY BUFF

By Newspaper Enterprise
JERSEY CITY, N. J., Aug. 15.—Johnny Buff, American flyweight champion, is through fighting half-pinters until he can hook Jimmy Wilde. He's going to battle bantams now.

There aren't enough flyweights in America to furnish sufficient opposition for Johnny to make a living for his wife and four kiddies. He has beaten all the Yankee "Bys."

A match with Willie, English fly champion, is brewing for September. That's the best match in his class left. Buff's real name is John Lesky. He is Polish. His age is 33.

QUALIFIED FOR
PRESIDENT'S CUP

C. E. Beane and P. W. Reilly, Jr., qualified for the president's cup in the Cypres Country club series over the week end. Beane turned in a net score of 73 and Reilly a gross of 55. At the Mount Pleasant links the third qualifying round for the Gillespie shield and golf half sweepstakes was held. The best scores were turned in by T. J. Ward and H. D. McKenzie. Walter Howarth and Arthur P. Smith captured the net honors. A. E. Howard and J. J. Ward were tied for best gross and 73 and their way also. The for the best net. Walter Jewett and Shepard Harrell each scoring 65.

HE'S THE CHAMPION

PEST SWATTER

He's a pest. Who? Well, the man who squeezes in your face; the motorist who hogs the road; the chap who asks: "Is it hot enough for you?"

You'd like to swat your own pet, particular pest, but you dabble. Everett True does the swatting for you. Everett True is that stout, quick-tempered gentleman over on the comic page. He is the most famous comic character in the world.

Turn to the fun page and see who Everett "has it in for" today. And (whisper) Mrs. True is some swatter herself.

ON I SAY, MR. JACK, CAN YOU POSTPONE YOUR VACATION ANOTHER WEEK?

Fatally Injured After Making Record

TOLEDO, Aug. 15.—Less than half an hour after he had broken the world's dirt track motorcycle with sidcar record for one mile, covering the distance in 40 seconds, Albert W. Burns, 27, of Oakland, Cal., was fatally injured, when, in the first lap of a 25-mile race at the Fair Grounds here yesterday, a fellow rider crowded him, forcing his machine to skid and crash through a fence. Burns' neck was broken and he died en route to a hospital.

LOWELL K. OF C. BEATS

THE BENNETT A. A.

The Lowell Knights of Columbus defeated the Bennett A. A. of Somerville Saturday afternoon at Spalding park, score 4 to 3. Davidson pitched for the local boys and as it happened he was not in his usual good form. The Somerville lads were able to reach him for a total of three runs in the fourth, fifth and seventh innings, with the result that Nide Cowley sent Cawley to the slab in the eighth to rescue the beleaguered youth from Pittsburgh. Eddie was good and held the opponents to the score they already rolled up.

In the second inning Lowell put across the play that had much to do with winning the game. There was one out when Cawley came to bat and knocked out a beautiful double. Not to be outdone Daly followed with a screaming triple and the man who had gone before crossed the plate. Sullivan also landed a three-base hit which brought Daly across. Bracken was hit by Ryan and a minute later had punched second. Davidson hammered a hot one to Carr who made a weird throw to the plate that opened the way for two runs.

With a lead of four runs the future looked rosy for the local men but later in the contest when Davidson began to weaken the rosy hue faded to a dull pink and the game disappeared entirely. Manager Coughlin decided that discretion was the better part of valor and so he relieved Davidson of his heavy responsibility. During the eighth and ninth there was nothing doing and the game closed calmly.

The lineup: Bennett A. A.—Norton of Martin of Carr ss, Drewie c, O'Connell 2b, Lynch lf, Hesley 2b, Graney 1b, Marlin p. Lowell K. of C.—McVey 2b, Lynch lf, Harris 3b, Cowley 1b and p. Fors c, Galey cf, Sullivan cf, Bracken ss, Davidson p, McGowan 1b.

AIRPLANE AS HEARSE

This is said to be the first airplane funeral held in America. The coffin of an American aviator is shown on the plane which transported it from the aviator's home, in the middle west, to the cemetery. Permission to take this photograph was given on condition that no name or location be given, as members of the family had arranged the private funeral simply as a fitting tribute to a flier.

United States of Central America to Be Born

By NEWSPAPER ENTERPRISE
WASHINGTON, Aug. 15.—There is to be a United States of Central America. It will consist of Salvador, Guatemala, Honduras, Costa Rica and Nicaragua.

These five republics will bear the same relation to their federal government as our states, having a central government modeled along the same lines as our own.
Next Sept. 15 probably will be the birthday of the new American republic, according to the Pan American Union here. The administration here is said to be viewing the union with friendly eyes and has removed all diplomatic barriers to the formation of the new state.
The Central American Union will comprise 170,000 square miles of fertile territory, filled with superb scenery and possibly with a hidden wealth of natural resources. It will have a population roughly equal to that of Canada.

The first step toward union was taken Jan. 13, 1921, when the Central American republics signed a treaty of federation.
This treaty provides that representatives of all the nations concerned shall meet to frame a federal constitution and outline what shall be the nature of the constitution.
The constitution will, in most respects, be identical with our own. But there will be no president. Instead, executive power will be vested in a federal council, whose members will be chosen by popular vote.

HOW TO REMOVE SKIN BLEMISHES

There's no better way of quickly removing unsightly skin blemishes and keeping the face, hands, neck or arms clear, soft and youthful than by the use of Black and White Beauty Bleach and Black and White Soap. Black and White Beauty Bleach removes the embarrassing skin blemishes—lightens and softens the skin. It is a delightful, flesh-lined cream, exquisitely perfumed which can be applied before retiring or during the day. Can be used before makeup with face powder or rouge.
Black and White Soap is an ideal cleanser. Will aid in removing blemishes and keep the complexion in ideal condition.
All drug and department stores sell Black and White Beauty Bleach, Black and White Soap, Cold, Vanishing, Cleansing and Dental Creams, as also Face and Talcum Powders popularly priced at 50c and 25c the package. Clip and mail this advertisement to Black and White, Box 1507, Memphis, Tenn., for free literature of Beauty Bleach and samples of Face and Talcum Powders.

Legislative power rests in an assembly like our congress, composed of a senate and a chamber of deputies. Every state sends three senators. Deputies are chosen on a population basis.
Judicial power rests in a supreme court of seven magistrates and three alternates.
The constitution will guarantee political and religious freedom to all citizens.
Primary education will be made compulsory by federal law. Secondary schools will be established by the various states. The federal government will found a national university.
The new nation will fly the flag now used by Honduras—three horizontal stripes—blue, white and blue with three white stars.

OBSERVE FEAST OF THE ASSUMPTION

The feast of the Assumption of the Blessed Virgin Mary was celebrated in all the local Catholic churches today as a holy day of obligation. Masses were celebrated at the usual holy day hours. This evening there will be benediction and recitation of the rosary in many of the churches.
At the 7:30 o'clock mass at the Sacred Heart church yesterday members of the parish Holy Name society received communion in a body. Rev. John H. Donnelly, O.M.I., celebrated the mass. The usual schedule of services was carried out in all the other churches.

The sisters of St. Peter's orphanage wish to express their gratitude to all those who contributed to the success of the nursing given the children of the institution last Thursday.

MAYOR TO DECIDE CRUICKSHANK CASE

The pressure of other business matters has delayed Mayor Thompson in making his finding in the case of Alexander Cruickshank against Supt. Raymond Welch of the police department. A hearing was held on the matter three weeks ago at which time Mr. Cruickshank sought to show that the superintendent had treated him discourteously and that a break in his piece of business had not been investigated by the department. The mayor expects to make his decision within a few days.

Mrs. Ethel M. Brown Tells How Cuticura Healed Daughter

"A small eruption came at the corner of my daughter's mouth and spread all over her face and head and down her throat and chest. It broke out like water blisters, and itched so that she would almost go wild, and she could not sleep. Her hair was matted and she was disfigured.
"My sister recommended Cuticura, and when I had used one box of Cuticura Ointment with the Cuticura Soap my daughter was completely healed." (Signed) Mrs. Ethel M. Brown, 398 Water St., Ellsworth, Me., July 29, 1920.
Clear the pores of impurities by daily use of Cuticura Soap and occasional touches of Cuticura Ointment as needed to soften, soothe and heal. They are ideal for the toilet, as is also Cuticura Talcum for perfuming.
Solely Sold Free by Mail. Address: "Cuticura Laboratories," Dept. 14, P.O. Box 1077, Lowell, Mass. Send 10c for sample of Cuticura Soap and Cuticura Ointment.

FUNERAL OF MURDERED PRIEST HELD

SAN FRANCISCO, Aug. 15.—While the police Saturday continued questioning William A. Hightower, itinerant baker, held in connection with the death of Rev. Patrick E. Heslin, funeral services for the murdered priest took place at St. Mary's cathedral, with thousands in attendance. Interment was in Holy Cross cemetery, a short distance from Fr. Heslin's parish at Colma.
Hightower, whose action in leading the police to the spot where Fr. Heslin's body was found in the sand along the Pacific ocean led to his being held as a suspect, has, according to the police, made a number of contradictory statements, which, when called to his attention, caused him to become surly, stubborn and uncommunicative. Once

FR. HESLIN

Saturday he clamped his hand over the lens of a camera in the hands of a newspaperman and said testily: "That's enough."
James Murray, expressman, brought yesterday to the police station a tent flap which he said he had found 25 ft. from Fr. Heslin's grave at Salada beach. There were black and red spots on it.
Murray also had a 45-calibre pistol bullet which he found on the grave. Hightower, according to Capt. Matheson, admits that he owned a tent which was found in his room and that he had taken the tent to a point near the grave and set it up there.
"I used it for a picnic party," he explained.

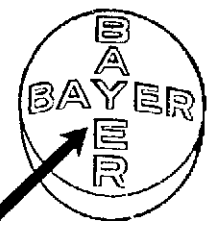

Then Hightower was faced with a target rifle, a holster for a 45 automatic pistol and a holster belt containing two 45-calibre cartridges, all of which were found under his name in a San Francisco payshop. The police said he admitted ownership.
The police said yesterday that Hightower had eaten little or nothing since the examination began.

AMUSEMENT NOTES

(By Theatres' Own Press Agents.)
MERRIMACK SQUARE THEATRE
A big program of Paramount pictures among which are "Too Much Speed," starring Wallace Reid and "Crazy to Marry," featuring genial Fatty Arbuckle, make up the double feature program for the first three days of this week.
"Too Much Speed" is another racing story dealing with a racing driver, Rusty Rhoades, who gives up the game to marry Virginia, the daughter of Pat MacMurrin, Pakko manufacturer. Just before the wedding is to take place, however, Rusty accepts an open road challenge, ditches the machine in which Pat and he are riding and father calls off the match. After an unsuccessful attempt to elope with the girl, Rusty secretly buys Pat's racing car, enters the race, wins the race and a contract from a foreign buyer for Pakko cars, and thus re-wins Pat's consent to the marriage. Agnes Ayres

Droughts and Famine Needless Says "Rainmaker" Hatfield

Tells Plan He Followed to Produce
Record Rainfall in Drought Stricken
Areas of Canada

CHARLES M. HATFIELD, THE RAINMAKER AND PLANT HE
USED IN ALBERTA OPERATIONS.

Droughts, starvation, famine—they are needless, says Charles M. Hatfield, the rainmaker—whose operations in Alberta during the past three months have followed by a record rainfall which saved millions of dollars' worth of wheat.

Though United States Weather Bureau officials and other scientists believe Hatfield, his operations in several western and Pacific coast states during the past 30 years have been frequently marked by rain—once, in fact, near San Diego, by a flood.

In the following article, written especially for The Sun, Hatfield tells the plan he employed to produce rainfall in Canada in a summer marked by general drought throughout the world, with famine in Russia and China, and crop ruin in the British Isles, and farm failures in many other regions.

By CHARLES M. HATFIELD

I have just returned from successful operations in Western Canada, a section of the country that for the past four years has been in the throes of such a drought that practically no grain has been raised.

Farmers there had been attracted by rain-making work in semi-arid sections of our western states, and requested my help. My record in the states includes 22 successful commercial contracts with chambers of commerce, city councils and other municipal bodies.

Called to Canada

I was requested by the United Agricultural Association of Medicine Hat, Alberta, to conduct a series of demonstrations to see what the results in the way of rainfall would be, following the operations upon the atmosphere.

During the summers of 1917, 1918, 1919 and 1920 the average rainfall over this portion of Western Canada has been only two inches. My proposition to the association was to increase the rainfall and bring about the largest possible rainfall during the months of May, June and July, the time of the year when most needed.

I began my operations on May 1 of the present year and finished August 1. And the records of the various rain gauges stationed over the territory show that during this period over five and one-half inches of rain being registered. As a result of this increased precipitation, the crops of Southern Alberta and Saskatchewan will yield all the way from five to forty bushels to the acre.

Remarkable Results

This has been a remarkable year over this portion of Western Canada. A view of conditions as they are to the south, west and north, leads one to believe that some force must have been at work in this section, so prominent and convincing has been the rainfall.

NEW OFFERING— Oliver Morosco Holding Co. OF NEW YORK

WE ARE OFFERING an issue of Preferred, totaling 15,000 shares, fully paid and non-assessable, cumulative and preferred as to assets and dividends, and 40,000 shares of Common Stock.

Adventures of the Twins

SPRINKLE-BLOW RETURNS

"DID YOU CATCH OLD WHIZZY TORNADO?" THEY ASKED.

After Nancy and Nick had taken the poor lizards back to their home by the barn-door, they returned to Whispering Forest, where they met Mr. Sprinkle-Blow with his lasso waiting for them.

"Did you catch Old Whizzy Tornado?" they asked, noting how tired the Fairy Weatherman looked. Sprinkle-Blow shook his head. "No," he said, "the old fellow went too fast for me. My magic umbrella can only go a hundred miles an hour, and he can go about two hundred. But he knew that I was after him, so he hurried across forty states and a dozen rivers and two oceans and some mountains to his home in the Cave of the Winds at the End of the Earth, and slammed his door. But I don't think he'll come out again for awhile, so the best thing we can do is to hunt up all these lost creatures and take them home."

The three of them got busy. The poor Zoo animals were scattered all

through Whispering Forest, some of them with homes, but more without. The monkey boys were found in Cob Coon's house in the tree, where Whizzy had blown them. Cob couldn't imagine what or who they were and wouldn't go home, and slept two nights in the sugar-bush. Mr. and Mrs. Pelican landed on the edge of Hippo Creek, near the Willow-Tree Pool, and as Blackie Bass and his friends said afterwards, never had they seen such appetites. They vowed they'd never complain of Cob Coon and Marty Mink again.

The lion scared everybody to death with his mighty roar, and when he wandered up and down the forest paths, never was there such a scurrying. Tiger and the elephant, the llama and the moose, all were wandering round with no place to go. Whispering Forest had turned into a perfect jungle.

(To Be Continued)
